PERFECT ENTRY INTO PREMIUM CLASS.

Luxury isn't a question of size. The proof has always been in the Credo: He has all the features that also set the large Concorde Motorhomes apart. Our entry model has just been thoroughly revised. New features include the exterior design with a succinct front and rear and a chassis base with a particularly high carrying capacity. Add to this a number of technical innovations and the renowned quality outfit. Typical Credo, typical Concorde.

Credo

AMAZINGLY SPACIOUS, REALLY LUXURIOUS.

The benefits of a premium motorhome are also manifest themselves in the detail. For example, in especially generous headroom thanks to a total height of comfortable 3.25 metres, an Alde warm water heater for perfect indoor climate, the Concorde One Level Concept with a continuous stairless 350 mm high raised floor throughout the entire vehicle, as well as high quality wall and ceiling trim for optimum insulation. It goes almost without saying that the new Credo has it all.

C

COMFORT START AS YOU STEP IN.

The living room. The intelligent interior concept of the Credo keeps a perfect balance of functionality and comfort. The ergonomically designed sofa together with the light weight "European Wenge" optic furniture with its high gloss over-head cream white locker flaps are standard as is the quality flooring in parquet optics. Besides the choice of Yacht design and Slate effect flooring this vehicle is also available as Option with wood finish "Noce" together with the high gloss "Senosan" cream white fronts. The wood option "Wenge" gives us the choice between high gloss "Senosan" and the high gloss roof cabinet fronts.

THE NEW EASE OF COOKING.

The kitchen. The Credo's now kitchen is a clear commitment to quality and function as well. Pharmacist's drawers, drawers with servo soft close, an intelligent waste management system and engineered stone kitchen benchtop with formed stainless steel sink set standards in terms of space utilisation, design and usability in this class. And they create ideal conditions for preparing even menus with several courses.

B

BATHROOM CONCEPTS FOR SUPERIOR REQUIREMENTS.

The bathroom. The clever design of the bathroom section creates an enormous sense of space – be it as space bath (floor plans 761 H, 791 L, 841 L and 841 M) or as premium bath (floor plans 790 H and 840 L). Pumps and piping systems in each bathroom versions create sufficient water pressure to allow you a shower experience like at home. The large wardrobe and a separate dressing area complete the bathroom.

COMFORTABLE ENOUGH TO SLEEP RIGHT THROUGH YOUR HOLIDAY.

The bedroom. Separated by a sliding door from the living area, the bedroom promises perfect relaxation. It starts with the various choices of bed with generous sleeping area. Depending on the plan you have the choice between a rear transverse bed with head cushion or two single beds and an optional drop down bed. They all share the Concorde Comfort Plus bed system, a perfect combination of slat base and cold foam mattress for a restful sleep. Numerous LED spotlights and indirect lighting create a pleasant (reading) light.

A large, white, serif letter 'A' is centered in the background of the slide. The text 'ALL-ROUND VISIBILITY IN SERIES.' is overlaid on the middle of the 'A' in a dark blue, sans-serif font.

ALL-ROUND VISIBILITY IN SERIES.

The cab. A clear arrangement and the resulting optimal overview in all traffic situations are key criteria in the development of a cab for motorhomes. Road safety is always on board thanks to a raised seating position and the large coach-style external mirrors. And the new Concorde dashboard still lets you keep an eye on everything important at a glance.

PERFECTLY MATCHED.

Leather and fabrics. Choose from various leather and microfibre covers; a few examples of these are shown on the right. All materials are meticulously manufactured in selected trade workshops according to Concorde's strict quality requirements. To ensure that they retain their typical qualities for as long as possible, they undergo an innovative waterproofing process: our microfibre materials are coated with ConLotus, whilst our leathers are coated with anti-soiling Aquaderm X-Shield. Dirt does not stick, liquid simply pearls off, and the feel and softness are preserved. In addition, the lounge seating is available with Concorde-designed Redonda upholstery: It ensures optimum grip, relaxes the spine and supports the lumbar region.

SIMPLY BEAUTIFUL THOUGHT. TECHNOLOGY AND OTHER FEATURES.

A Caratec sound system. The optional high-end components ensure optimum listening pleasure thanks to individual adaptation to location and floor plan for rich sound in the motorhome. 2-way speaker system Create (cab), high-end speakers including center speaker (living room) and a subwoofer an impressive music and TV experience.

B Insulated front shutter. The insulated front shutter is electronically operated and when completely closed assures that the front windscreen of the Vehicle is heated when required and offers protection against the summer sun.

C Fresh and waste water drain valves. Situated in the heated double floor the fresh and waste water valves are optimally positioned. Thanks to our quick release system the Tanks can be conveniently and quickly drained. Through the floor access points, the fresh and waste water tanks can easily be cleaned.

D Mastervolt. The Mastervolt battery-management system monitors the charging cycles of the batteries, ensures a perfect utilisation of the storage capacity and prevents deep discharge. In the event of a weak mains connection, the Mastervolt system supports the land-based power. It can be controlled using a clear operating element with a battery monitor, and is available for all Concorde motorhomes.

E Engine compartment. Perfectly tidy: the important elements in the engine compartment are easily accessible. Windscreen washer water and oil, for instance, can therefore be checked and refilled with ease.

F Service flaps. The new service flaps on Concorde motorhomes make the intermediate floors perfectly accessible. This makes loading and unloading this cross-cut storage space, even with bulky objects such as camping furniture, significantly easier.

G Fully insulated engine front wall. Exclusivity sometimes begins where nobody can see it: Concorde is replacing the partition originally installed between the engine compartment and the driver's compartment with a full-sandwich wall. This protects the vehicle interior from engine noise and provides optimum insulation (high level of efficiency in winter).

H Alde hot-water and gas central heating. Hot-water and gas heating from Alde heats the vehicle consistently and thus maintains the natural air humidity. The temperature can be control individually using the thermostat as well as a timer. This doesn't stir up dust like conventional blower heaters do. The boiler is equipped with electronic heating cartridges which can either be used separately or in combination with liquid gas. An Alde system has a duct shut-off and an integrated hot-water boiler which supplies all tapping points. It is included in the standard equipment for all Concorde motorhomes.

NOW THAT'S PERFECT SHAPES.

The floor plans. Four proven and two new variants of a lengths from 7.69 to 8.49 metres: The floor plans of the Credo are thought-out in detail and combine a generous spatial impression with a functionality perfected in every detail. For comfortable travel in perfect shape.

OUR DRIVE FOR YOUR PASSION.

The essence of mobile travel. Concorde is committed to the concept of quality craftsmanship. We manufacture motorhomes of the highest quality for the highest demands. Every vehicle is unique, every vehicle is a masterpiece, classically hand-crafted in a traditional Franconian company, with unwavering passion, enthusiasm and inspiration. Because a passion for motorhomes is what unites the people at Concorde. And it is that which unites us with you.

“It remains our daily objective to not only to build Motorhomes to the highest possible standard, but also to fulfill the hopes and dreams of our customers.”

Bastian Mathy
Head of Production

“There are no limits in terms of Quality, therefore we continue to believe that no matter how good we may be, there is always room for improvement.”

Patrick Murphy
Quality-Manager
