REISEMOBILE AUS LEIDENSCHAFT

UNCOMPROMISING INDEPENDENCE.

An absolutely premium-class alcove, which is just right for individualists: the Cruiser boasts a perfect combination of luxury and performance. It contains our unique expertise based on 30 years of experience in alcove construction, as well as the knowledge that even the best can be improved. For example the entire body is now manufactured in a lightweight-sandwich construction, making the current Cruiser weigh 45 kilograms less. Never before has independence in the Cruiser been so long-lasting.

Cruiser

POWERFUL. AND FULL OF IMPRESSIVE IDEAS.

Feel the pure freedom. The Cruiser stands out thanks to its unbridled power and the highest functionality. The Mercedes Atego has a choice of three floor layout plans to select from. A high seating position provides optimum all-round visibility, thus increasing safety on the road. Additional distinguishing features of the Cruiser are its absolute strength in winter, four exceptionally comfortable beds and an intelligent storage-space concept.

G

GENEROSITY IN TERMS OF COMFORT AND EQUIPMENT.

The Living room. Treat yourselves to a journey without any restrictions in comfort. In the spacious and elegant living room area the Cruiser has as option to the Wenge Furniture the exclusive wood variant "Noce". The exclusive wood "Noce" is combined with the "Senosan" cream white fronts. For maximal comfort as standard we have the floor covering in parquet look or optionally the Slate and the Yacht effect to choose from.

A

AN INFINITELY VARIABLE
CONCEPT WITH EXTENSIVE
STORAGE AREA.

The kitchen. To cook creative means variety – even on the road. Adaptability is therefore the defining element in the kitchen: perfectly integrated kitchen utilities, the large-scale mineral kitchen worktop and an intelligent storage concept, create full independence while traveling.

SIZE GUARANTEES INDEPENDENCE.

The bathroom. Even in the spacious Premium Bathroom with shower and toilet inundates the Cruiser with particularly high-quality equipment. Adequate sized fresh and gray water tanks for the upmost comfort of use. The towel heater provides cozy warmth in the bathroom added to the comfort of warm towels ready for use. In combination with under floor heating produces a Wellness Oasis.

R

RELAX AND ENJOY
COMPLETE FREEDOM.

The sleeping area. The alcove is the favourite place for children in a motorhome – in the Cruiser, that's also true for adults: the interior height of 70 centimetres creates a surprising amount of headroom. The rear bed and the alcove double bed are equipped with the Concorde comfort mattress system. And if you get out of any of these beds at night, the optional underfloor heating throughout the entire interior floor will ensure that you don't get cold feet.

Wenge

Wenge with high gloss cupboard fronts (added option)

Noce only in combination with high gloss cupboard fronts (added option)

THE FURNITURE LINES – CLASSIC STYLE OR CLASSY AND MODERN.

The design concepts. Two different design variations provide generous space adventures. The Cruiser is equipped with either a line of furniture in noble Wenge (standard) or modern Noce optics (option). Wenge can be equipped in addition to the standard fitted, classic wooden furniture fronts with high-quality high gloss furniture fronts in "Senosan" cream white. The exclusive wood Noce is only available in conjunction with the furniture fronts high gloss "Senosan" cream white. Both trim levels are meticulously handcrafted in Concorde's own joinery. The pleasant flooring with top marks in ride comfort from the object region in parquet, slate or ship deck optics are ideally matched to the individual choice of furniture.

EXPRESSIVE IN ITS INTERIOR QUALITIES.

Leather and fabrics. We offer a wide range of different full leather and microfiber covers; Examples of which can be seen to thee right side. All materials are meticulously manufactured in selected workshops, adhering to Concorde's strict quality requirements. To allow them to retain their typical qualities during their long life on the road, they undergo an innovative waterproofing process: our microfibre materials are equipped with ConLotus, whilst our leathers are equipped with the anti-soiling Aquaderm X-Shield. Dirt does not stick, liquid simply rolls off, and the feel and suppleness are preserved. In addition, you can choose the Concorde designed Redonda upholstery. It ensures optimum grip, relaxes the spine and supports the lumbar region.

Leather "Mother-of-pearl"

Exclusive Leather "Rustic Grey"

SIMPLY WONDERFULLY THOUGHT THROUGH. TECHNOLOGY AND OTHER FEATURES.

A Rear bed with sprung base. In this modern sleep concept, a refined sprung base replaces the previously used slatted frame. The high-quality cold-foam mattress and the adjustable headrest also ensure a particularly comfortable night's sleep. The rear bed with sprung base is also part of the standard equipment in the Cruiser.

B Mastervolt. The Mastervolt battery-management system monitors the charging cycles of the batteries, ensures a perfect utilisation of the storage capacity and prevents deep discharge. In the event of a weak mains connection, the Mastervolt system supports the land-based power. It can be controlled using a clear operating element with a battery monitor, and is available for all Concorde motorhomes.

C Garage doors. From the 2014 model year, all Concorde motorhomes will be equipped with garage doors as standard. Unlike the previously used garage flaps, these also allow partial opening. They provide optimum insulation thanks to their thermal separation.

B

C

D

E

D Service flaps. The new service flaps on Concorde motorhomes make the intermediate floors perfectly accessible. This makes loading and unloading this cross-cut storage space, even with bulky objects such as camping furniture, significantly easier.

E Alde hot-water and gas central heating. Hot-water and gas heating from Alde heats the vehicle consistently and thus maintains the natural air humidity. The temperature can be controlled individually using the thermostat as well as a timer. This doesn't stir up dust like conventional blower heaters do. The boiler is equipped with electronic heating cartridges which can either be used separately or in combination with liquid gas. An Alde system has a duct shut-off and an integrated hot-water boiler which supplies all tapping points. It is included in the standard equipment for all Concorde motorhomes.

F Truma air-conditioning system. For perfect air conditioning, the Cruiser, upon request, can be equipped with a 2400 W Truma air-conditioning system. The system is installed in the raised floor and can be controlled conveniently using an infrared remote control. What's more, Concorde is the first company in the motorhome industry that has the **Premium Comfort Climate Label** from Truma. It distinguishes us for offering our customers the highest levels of cooling comfort.

A large, stylized, light gray letter 'D' is centered on the page. The letter is composed of a thick white outline and a solid light gray fill. The text 'DIVERSITY, TAILORED TO YOUR REQUIREMENTS.' is centered within the 'D' in a dark blue, sans-serif font.

DIVERSITY, TAILORED TO
YOUR REQUIREMENTS.

The floor plans. One chassis, one highly impressive weight rating: the permissible maximum weight of the Mercedes-Benz Atego ranges up to twelve tons. A total of three layouts are available for selection, with two rear bed variants. You can choose between the standard seating group and a circular seating group with each layout.

OUR DRIVE FOR YOUR PASSION.

The essence of mobile travel. Concorde is committed to the concept of quality craftsmanship. We manufacture motorhomes of the highest quality for the highest demands. Every vehicle is unique, every vehicle is a masterpiece, classically hand-crafted in a traditional Franconian company, with unwavering passion, enthusiasm and inspiration. Because a passion for motorhomes is what unites the people at Concorde. And it is that which unites us with you.

“It remains our daily objective to not only to build Motorhomes to the highest possible standard, but also to fulfill the hopes and dreams of our customers.”

Bastian Mathy
Head of Production

*“There are no limits in terms of Quality,
therefore we continue to believe that no
matter how good we may be, there is
always room for improvement.”*

Patrick Murphy
Quality-Manager

“In the service department, we provide straightforward assistance and solve problems quickly. Only the customer can decide whether we have done a good job. We are only completely satisfied with our own performance when the customer is.”

Armin Dietz
Head of customer service
