

ERIBA Caravans 2015

ERIBA Touring, ERIBA Feeling, ERIBA Exciting, ERIBA Nova Light,
ERIBA Nova GL, ERIBA Nova SL and ERIBA Nova S.

ERIBA

The HYMER plant in Bad Waldsee – at the heart of Europe.

Dear customer,

Caravanning is much more than just a way of driving to your dream holiday destination. For many people, it is also an expression of a philosophy of life, a yearning for freedom, individuality and independence. Spontaneously pack up a few things, get in and enjoy your free time over the weekend or travel from place to place on your annual holiday and experience something new and exciting every day – the ideal life for a caravan enthusiast!

And that's why, for more than half a century, we have been developing caravans of the ERIBA brand. In this we attach utmost importance to maximum quality, perfect comfort, comprehensive equipment, modern design and as much safety as possible – all of which naturally come as standard across all classes! Many of our models have acquired cult status over the years, and many have won awards.

With caravans from HYMER, you make exactly the right choice to fulfil your lifelong dream. This is, after all, a brand with tradition – with innovative vehicles which constantly set new standards.

Rudi Fimpel
Head of ERIBA Caravan Division

Erwin Hymer (* 27 July 1930 † 11 April 2013), a leading figure of the European caravan and motorhome sector.

The Pioneer

Inventor, visionary, entrepreneur – Erwin Hymer wrote camping history by turning his group of companies into a European market leader.

Technical know-how, the pioneering spirit of the entrepreneur and a healthy dose of ambition and hard work – all of these were typical of Erwin Hymer. From small beginnings, he created a group of companies which now ranks among the leading motorhome and caravan manufacturers in Europe and is active worldwide.

As a young engineer, Erwin Hymer followed his parents' calling and began working in his father Alfons' repair shop in the southern German town of Bad Waldsee in 1956. Just one year later, he developed the first caravan – the original "Troll" – in collaboration with the engineer Erich Bachem. And thus began a new era. The next decisive step came in 1971 with the launch of the first HYMER motorhome – a key milestone in our long corporate history!

The past 57 years have seen a wide variety of different series, models and layouts. Many of the motorhomes and caravans set standards and ushered in new trends – especially in terms of technology, comfort, quality, design and safety. For our founder Erwin Hymer, incorporating customers' wishes into the development of new and improved vehicles was always a matter of principle.

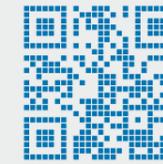

As a result, the concept of the mobile home has always been inseparably linked with the name HYMER. And the passion and professionalism that goes into the development and construction of our vehicles communicates itself to our customers. For decades, Erwin Hymer's inventiveness and ceaseless creativity has shaped the entire industry. His whole life's work provides us with a model for future corporate decisions.

A unique success story

The history of the ERIBA caravan.

Beginning with the legendary Touring models from the early days of the company history, which have long since acquired cult status, to the luxurious Nova model ranges of the present day – for almost six decades, the ERIBA caravans have shaped a whole industry. Innovative technologies, regular new features

and a maximum degree of comfort and quality ensure maximum customer satisfaction and constantly set new trends. Join us on a fascinating journey back in time through the history of ERIBA caravans.

1923

1957

1960

1966

1976

1978

1980

The beginning of a unique success story.

Alfons Hymer begins production of agricultural vehicles.

Erich Bachem ("ERIBA") and Erwin Hymer build the original "Troll", the first caravan.

Birth of ERIBA Touring models Puck, Faun and Troll followed by Pan, Familia, Triton and Titan.

Introduction of the ERIBA Nova model series.

Launch of Eribette, a compact alternative to the ERIBA Touring built of wood.

The innovative PUAL wall structure is developed and proves its stability.

ERIBA and HYMER merge to form ERIBA-HYMER GmbH.

1998

The ERIBA Moving model range sets new standards in caravan design with its round body shape.

2004

The redesigned ERIBA Nova is the most modern caravan on the market.

2005

The ERIBA Feeling is developed as a modern lifting-roof caravan.

2012

The ERIBA Exciting supplements the model range for young campers.

2013

The ERIBA Nova Light combines the compact outer dimensions of the ERIBA Feeling with the comfort features of the ERIBA Nova.

2014

There are many important criteria to consider when buying a caravan. After all, it's an investment you expect to benefit from for years or even decades to come, enhancing your leisure time and holidays and bringing you freedom and independence. So who better to turn to for information than a renowned supplier and world market leader with a wide selection of vehicle types? With all product developments, ERIBA customers are entitled to expect a high-quality vehicle with superior comfort, and one which also represents a worthwhile economic invest-

ment. In addition, all ERIBA caravans are equipped with extensive safety features as standard. Especially – but not only – in terms of weight or PUAL (polyurethane/aluminium) construction, the specialists from Bad Waldsee pride themselves on setting ever new standards. What's more, ERIBA customers have access at all times to a comprehensive range of services. For all these reasons, when it comes to purchasing a caravan, you need look no further than the premium product manufacturer from Bad Waldsee!

We are always close at hand – as service providers and as people who share a common passion.

Where luxury comes as standard

Why pay for extras? ERIBA has it all!

Every modern convenience

All-round comfort: the high-quality outfit and elegant design of the ERIBA impresses at first glance.

Maximum safety

Whatever your destination, driving safety and comfort are paramount with ERIBA.

Value retention

An investment that holds its value and will achieve a high resale price even after many years.

Innovations

Pioneering lightness: from lightweight construction to the unique new raum+system, ERIBA sets ever new standards.

High-tech body

Unrivalled technology: the PUAL construction technique ensures a perfect interior climate even at extreme temperatures.

Top service

Also good to know: we'll still be there for you post-sale, thanks to our dedicated service and extensive dealer network.

The Plus system for more space

First-class comfort & perfect interior design.

Innovative and unique

The innovative raum+system gives you even more comfort and space within the same dimensions. It was developed based on the key principles of maximum functionality and practicality plus exceptional comfort. The new

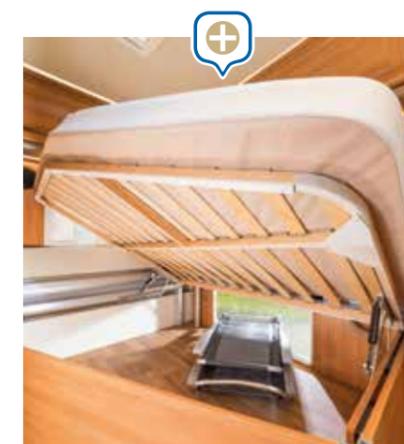

ERIBA Nova takes intelligent plumbing and wiring solutions to a whole new level, allowing unrestricted use of stowage space and integrated solutions for improved user comfort. The raum+system is the hallmark of a well-de-

signed interior with superior home comforts, optimal sleeping facilities and the ERIBA service installation concept – a world first in the caravan sector!

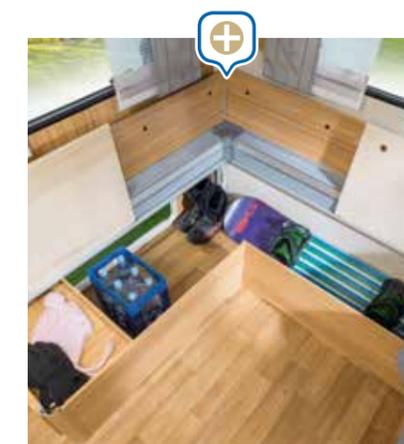

Comfort plus

Starting with a headroom of 1.98 metres, key comfort features include 2-metre long beds, comfort U-shaped seating, a dressing room, a 146-l Smart-Tower refrigerator and a luxury bathroom concept.

Storage plus

Not an inch of the interior is wasted, with completely clear, unobstructed stowage spaces, large overhead storage cupboards, optimal access and large payload reserves of up to 500 kilos. The sleeping and seating areas have cel-

lar space beneath and are unencumbered by service installations. The fresh water tank is installed under the vehicle floor, the Truma heater in the wardrobe and the wiring and hot-air pipes in a separate installation duct.

A home for all seasons

Thanks to exceptional PUAL technology.

“After an eventful day of sporting fun on the slopes, the ERIBA Nova has everything you need for a cosy winter’s evening at home”.

Rudi Fimpel, Head of ERIBA Caravan Division

Efficient air circulation

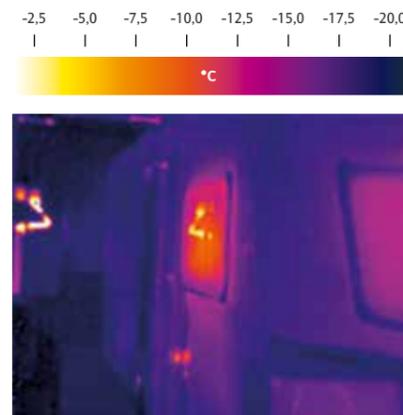

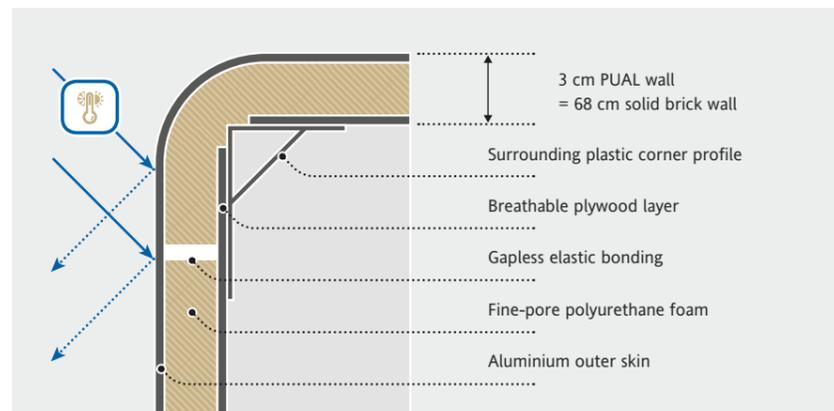

All overhead storage cupboards have a void at the back through which warm air can circulate freely. That way major temperature variations and condensation in the interior are avoided.

Intelligent heating

The Alde hot-water central heating system guarantees an unrivalled level of comfort in the ERIBA Nova. Warm, cosy and draught-free: thanks to the convector heaters integrated in the furniture, air can circulate freely and imper-

ceptibly, ensuring a uniform temperature distribution. Supplemented with the warm water underfloor heating, you couldn't be more snug.

Perfect insulation thanks to patented design

ERIBA's unique PUAL construction technique which still sets standards today is notable above all for its outstanding wall and roof insulation values. It guarantees pleasant temperatures throughout the year and keeps gas consump-

tion low in winter. The thermal insulation is equivalent to a 68 cm-thick solid brick wall. Thanks to gapless elastic bonding, the walls and roof are sealed together tightly and capable of withstanding extreme stresses.

First-class test results

All our newly developed models are tested in the cold chamber for their winter-resistance. The new Nova came through the cold stress test with the best results ever recorded in the caravan sector.

Dry drawer

A dry drawer is provided under the wardrobe. Warmth from the heating system enters the drawers through ventilation holes and dries damp clothing just like a tumble drier – warm socks guaranteed!

Frost-proof service installation

Fresh and grey water tanks are installed in an insulated and temperature-controlled GRP tray under the floor to prevent any risk of freezing. All hot-air ducts, fresh water pipes and electrics are housed inside the caravan for frost protection.

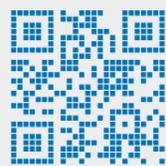

Sealing in the heat

To keep that cosy warmth inside the vehicle, all windows are fitted with cold-bridge-free PU frames and have a steplessly adjustable, double-pleated Duette honeycomb blind for added thermal insulation.

The contents of those pages depends on the model.

Take a peek behind the scenes at ERIBA with our informative factory tour.

The ERIBA Touring

The cult caravan for seasoned travellers.

Pure individualism: ERIBA touring caravans have acquired cult status. For more than 55 years, the design principle with its aerodynamic styling has offered the ideal home for people who pursue their desire to travel. A low unladen weight, compact dimensions and a low overall height thanks to the lifting-roof solution are attributes synonymous with touring caravans. The perfect road-holding properties are legendary. This model range is characterised by exclusive equipment which promises comfort

and safety and low fuel consumption and has been successful for decades. An intelligent, practical furnishing concept with a high quality interior and an exclusive design – in the living and sleeping area, in the kitchen and bathroom – make travelling with the ERIBA Touring an unforgettable experience. Experience nature by travelling carefree through your favourite region – completely individually and independently!

Weight: 900 – 1,300 kg

Length: 4.83 – 5.76 m

Width: 2.00 / 2.10 m

Height: 2.26 m

Berths: 2 – 4

ERIBA Touring Highlights

A sense of well-being is all part of the package here.

LED awning light with motion detector

Perfect interior climate thanks to lifting-roof canvas window

Low fuel consumption due to aerodynamic front

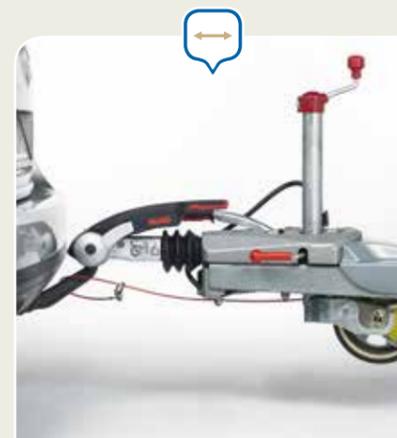

1.95 m headroom thanks to ERIBA lifting-roof

Unique design principle borrowed from the aviation industry

Perfect road-holding characteristics and driving safety

Further standard highlights: pull-out entry step, insulated gas bottle, all upholstery fabrics with HYMER stain protection, external table attachment strip, folding kitchen worktop extension

Comfort in the ERIBA Touring comes from practical basic equipment levels which are beyond comparison in this class. The typical Touring highlights give the living area an exclusive flair. Here, the feel-good factor comes as standard – try it for yourself!

No snaking when driving

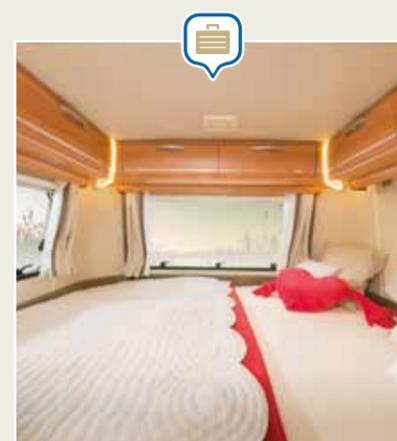

The anti-snake stabiliser (AKS 3004) with automatic overrun and auto-reverse mechanism corrects snaking as soon as it occurs and thus increases the safety margin.

The elegant way to save fuel

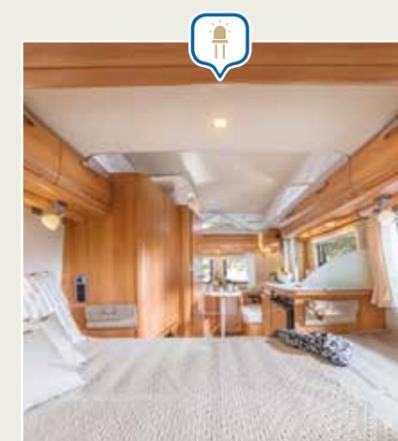

ERIBA caravans are models of efficiency – this is due to the aerodynamically shaped front with its rounded edges. The body shape, which is unique in caravan construction, features timeless elegance and conceals numerous benefits:

low air resistance for more fuel economy, much greater driving safety and perfect road-holding. This makes your holiday tour with this compact touring expert safer, more economic – and more elegant.

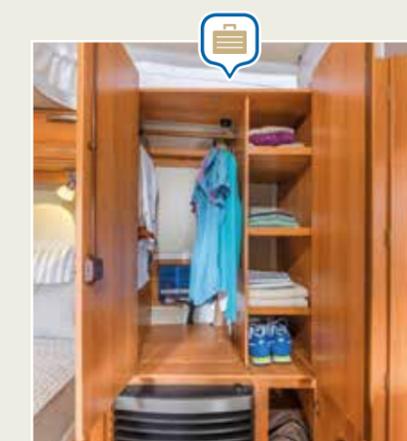

Everything well stowed

The all-round overhead storage cupboards with their elegant doors are big enough to house all your travelling utensils and they all stay closed without rattling.

Reading light with sensor

A new feature of the ERIBA Touring is the reading light above the transverse rear bed, the twin beds and the large seating group with a sensor (depending on model). Just the thing for bookworms!

Plenty of space for long journeys

All the layouts have a generous, full-height wardrobe with adjustable shelves which easily accommodate all your holiday clothing. So you are well equipped for long journeys.

Illustrations for example purposes only.

Living comfort

Top-quality living comfort in the cult caravan.

1 Compact but spacious travel star

The ERIBA Touring with its lifting-roof offers a headroom height of 1.95 metres. Together with the cleverly designed, bright Merano pear wood furniture finish, the interior makes a very friendly impression.

2 High seating comfort

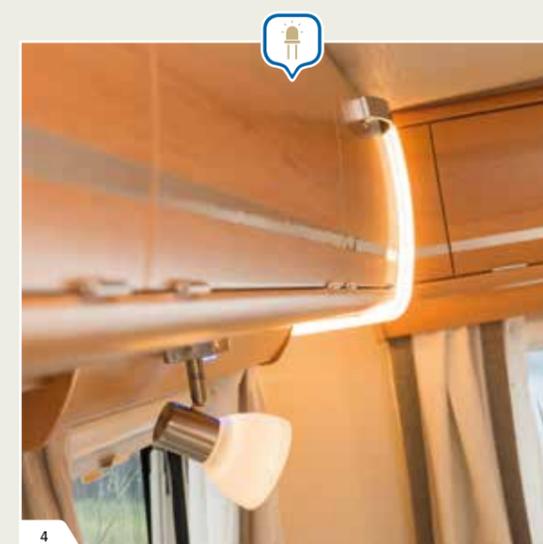

The luxury backrest cushions offer significantly more seating comfort, being slightly higher and optimally moulded to your body shape.

3 Storage space galore

All fixed beds open up wide and high-quality spring struts keep them safely in position when open. The enormous bed boxes are easily accessible – either from inside the caravan or from the outside through the large exterior locker door on the awning side (optional extra dependent on model).

4 Pleasant room lighting

The ambient LED lighting integrated in the overhead storage cupboards provides a pleasant ambience and minimises power consumption.

Sleeping comfort

Dream interiors where the last thing you'll want to do is sleep.

1 Maximum sleeping comfort

Travelling needn't mean missing out on a good night's sleep - here you can dream away on cold foam mattresses with soft drill covers.

2 Extra bed and storage space

All seating groups can be transformed as quick as a flash into a comfortable bed. The spacious seat boxes provide plenty of stowage space which is easy to access.

3/4 Enlarged bed surface

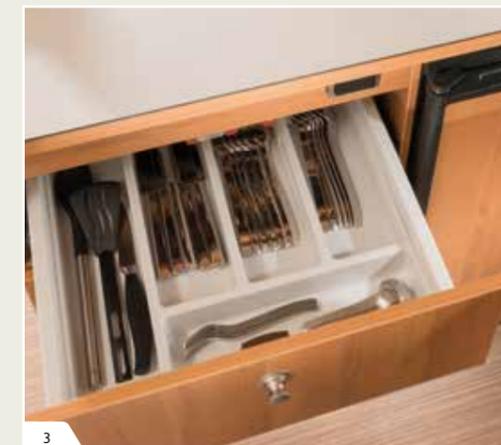

As an optional extra, a pull-out Ergo wooden slatted frame can be integrated instead of the normal box under the seat. Therefore, with the models 410, 420 and 540 it is possible to turn the whole sleeping area into one very large bed.

Kitchen comfort

Cooking is even more fun with the practical kitchen system.

1 More space for preparation

The side flap acts as a work top extension – together with the sink cover it produces a large work surface.

2 Highly practical

The sink cover and chopping board creates additional work space and even large pots fit under the water tap.

3 Always to hand

The spacious drawer with cutlery tray keeps everything neat and tidy.

4 3-ring hob

The optional easy to use and easy to clean 3-ring hob also makes it possible to prepare more ambitious meals. When folded up, the glass cover serves as a fire guard.

Bathroom comfort

Multi-functional bathroom.

Everything in its place

The bathroom is equipped with a height-adjustable mirror, a shelf with elastic straps to store utensils, a towel rail and a Thetford bench toilet.

Extra comfort to order

1

Want to add a more personal touch of class to your ERIBA caravan? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your ERIBA dealer will be happy to inform you about the complete range.

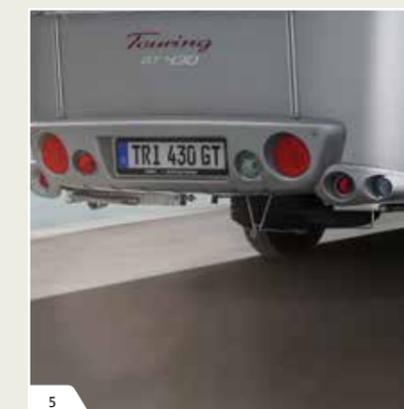

2

3

4

5

1 ERIBA is now GT

The GT package is a visual and functional upgrade for your ERIBA Caravan: on the one hand, the alloy wheels, the smooth side panels, nose and rear in Crystal Silver and the stone protection plate. There are also three additional

reading lights in the front and rear, an exterior storage compartment locker on the right, a waste bin integrated in the door, a roller door mosquito net, chopping board sink cover and two utility pockets.

2 Optimal loading

The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the optimum towbar weight when travelling.

3 A storage miracle

When you open the hatch door in the floor, you have an enormous additional "cellar" at your disposal. It has a capacity of approx. 40 litres.

4 More than just a door

The entrance door becomes a practical furniture item with its stowage pockets and integrated waste bin. The optional insect screen roller blind keeps unwanted guests away.

5 Wheel on

The rear underfloor spare wheel holder ensures that you always have a full-size spare wheel with you in an emergency – without wasting any precious storage space.

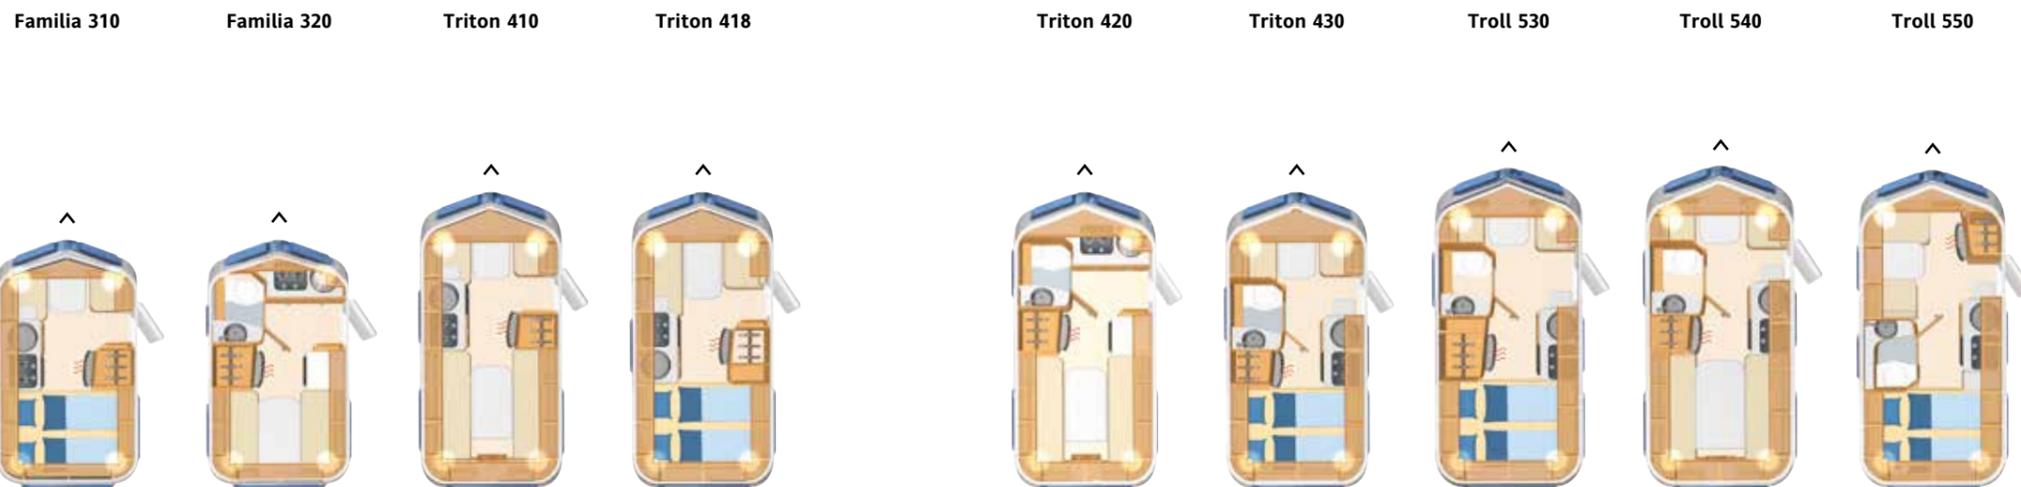

Illustrations for example purposes only.

The ERIBA Feeling

Small on size, big on emotion.

Light, manoeuvrable, sporty. Perfect for an authentic travel experience and long-distance tours combined with the best of home comforts. And its compact overall dimensions make for easy handling on the campsite too. This model series ideally combines the technical advantages of a lifting-roof with a generous living space concept. The unique PUAL technology provides excellent insulation for an optimal climate.

With its high standard of comfort, the ERIBA Feeling puts you in the holiday mood from the word go. And its low dead weight means it can take any amount of luggage. Generous, cosy seating arrangements and berths ensure a superior standard of living and sleeping comfort, while the kitchen and bathroom offer plenty of practical storage.

Features

Weight: 1,200 – 1,500 kg

Length: 6.07 – 6.47 m

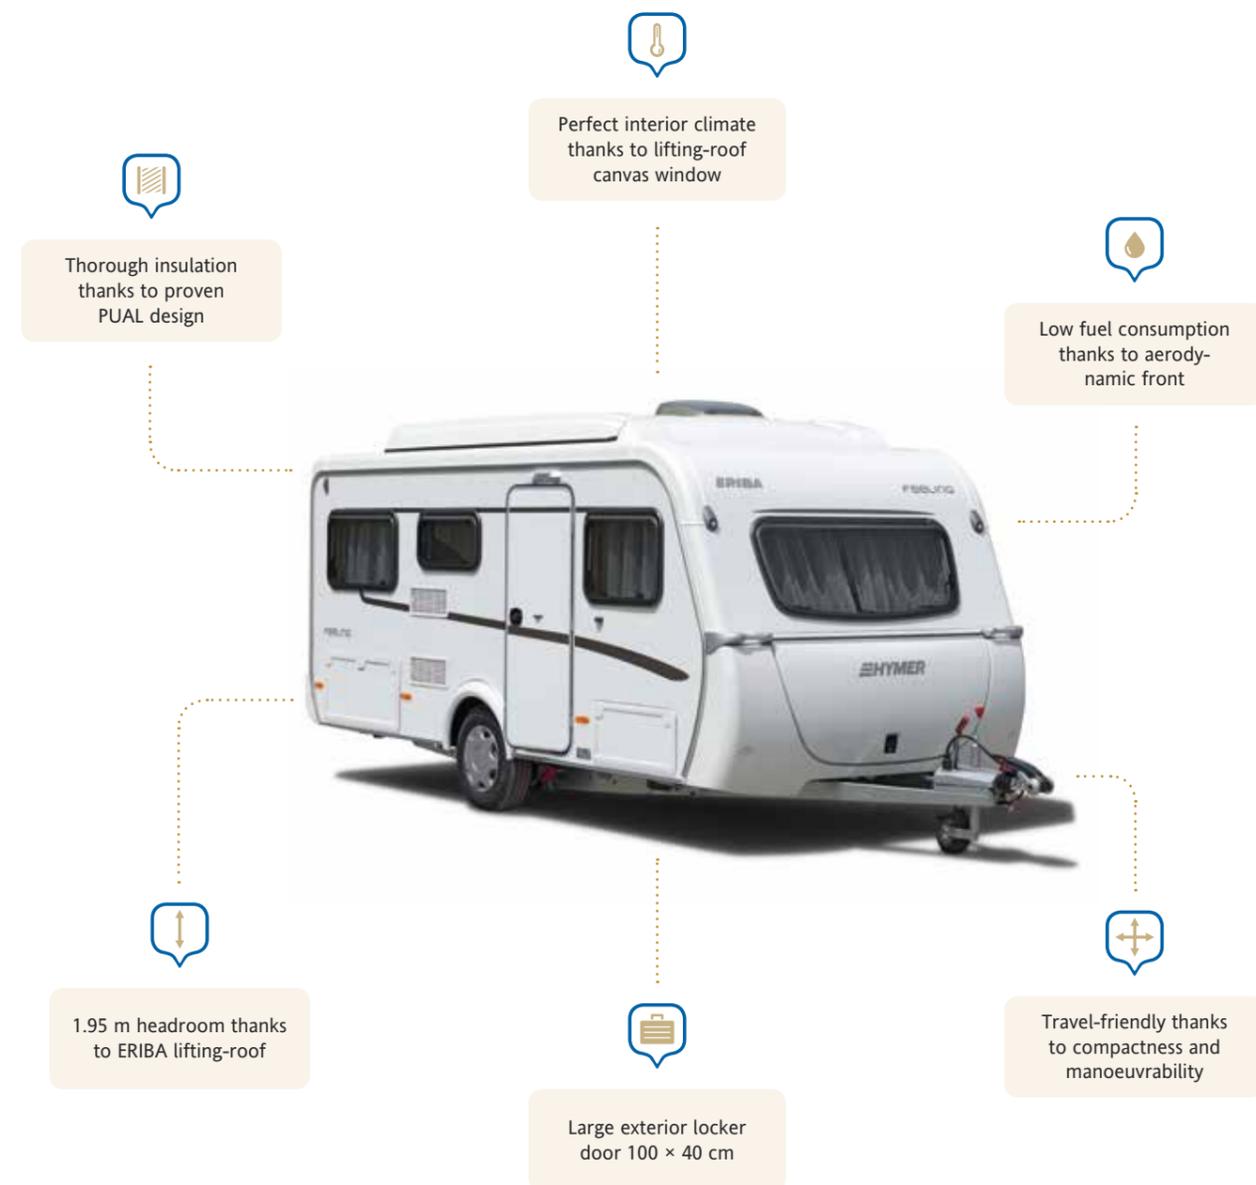

Width: 2.17 m

Height: 2.24 m

Berths: 3 – 6

ERIBA Feeling highlights

Where the feel-good factor comes as standard!

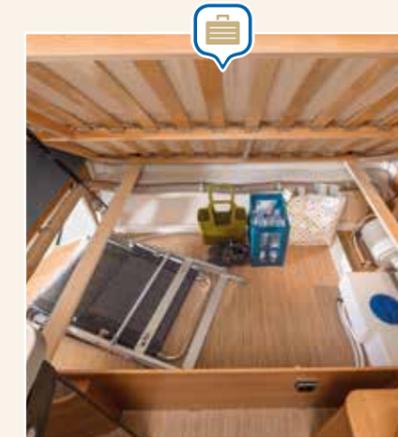

Other series highlights: continuous manoeuvring handle at the rear, sturdy grab handles at the front, roll-up slatted frame with extra cushion between single beds, 45-litre water tank

The comfort of the ERIBA Feeling derives from a practical basic equipment package which is unrivalled in this class. The typical Feeling highlights give the living area an exclusive flair. Here, the feel-good factor comes as standard – try it for yourself!

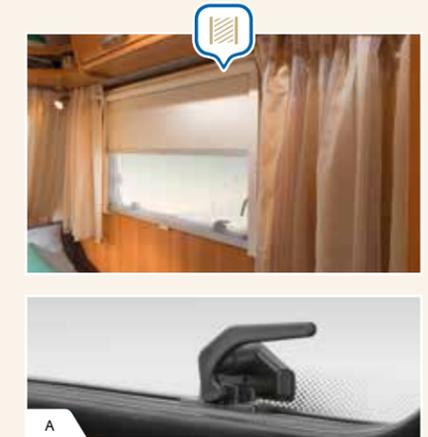

High loading capacity

The extra-long drawbar not only offers space for a drawbar carrier, but also has sufficient load-bearing capacity thanks to a nose weight of 100 kg.

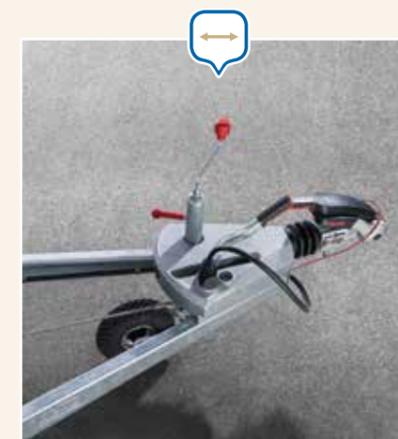

Storage space galore

All fixed beds open up wide and high-quality spring struts keep them safely in position when open. That way the huge bed boxes are easily accessible – both from inside the caravan and from the outside through the exterior locker door on the awning side.

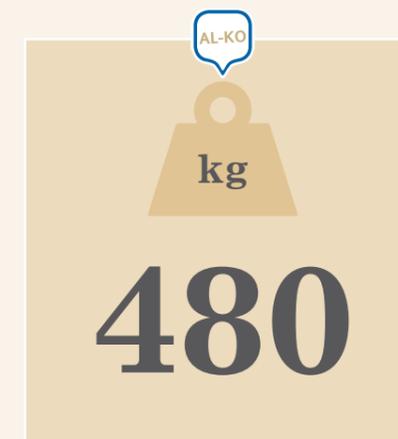

Perfect multiple protection

The tinted windows with acrylic double glazing not only provide sun protection and thermal insulation: they are also fitted as standard with insect screens and blackout roller blinds, plus safety locks (A) with vent position catches.

Greater driving safety

The extra-long V-shaped drawbar of the AL-KO chassis and its semi-trailing link axle with independent suspension ensure optimal road-holding and extremely high driving stability. That means maximum safety on your travels.

Very high payload

Thanks to their ultra-sturdy, fully galvanised AL-KO lightweight chassis, ERIBA caravans have a very high load-bearing capacity despite their low dead weight. Payloads of up to 480 kg are possible depending on the model and equipment level.

Large gas bottle locker

The lockable nose stowage compartment can be easily reached through a wide-opening hatch fitted with a gas pressure strut. Besides two 11 kg gas bottles the compartment also has room for a spare wheel, an optional 22 litre waste water tank and the vehicle ramps.

Illustrations for example purposes only.

Living comfort

Top-quality living comfort in a compact caravan.

1 The feel-good factor

With its fresh, modern decor, the ERIBA Feeling gives you a pleasing sense of space and makes a sporty travelling companion you can go anywhere in the world with.

2 Dine in style

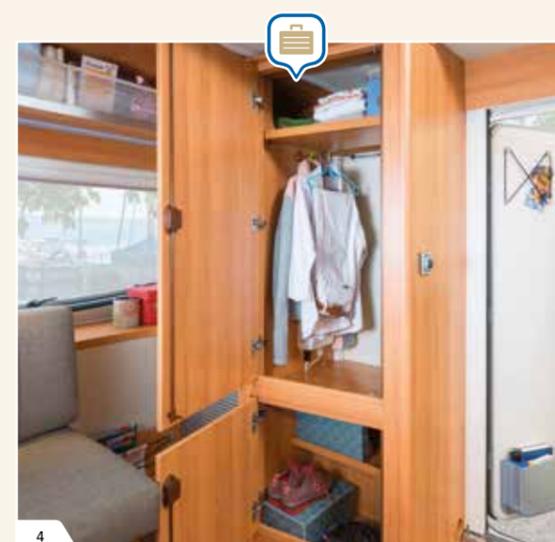

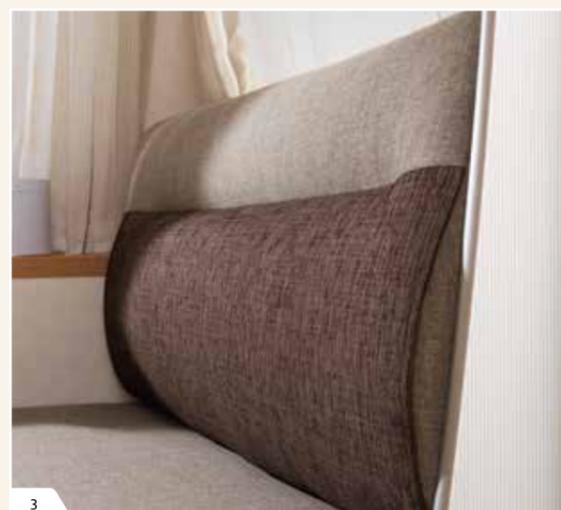

The seating arrangement of the Feeling 425, shown here in the fabric combination Rivera, provides plenty of space to enjoy a meal in company.

3 First-class seating

The luxury backrest cushions offer significantly more seating comfort, being slightly higher and optimally moulded to your body shape.

4 Organisation is everything

The generous fitted wardrobe provides space for all your holiday wear, so you're fully equipped for longer trips.

Sleeping comfort

1

2

3

The ideal place for playing, romping or relaxing.

4

1 Ideal for families

The elevating roof creates two extra full berths, making it a perfect choice for families.

2 Rest and relaxation

In the ERIBA Feeling 470 – here in a Merano pear wood finish – you can relax in perfect comfort on high-quality cold-foam mattresses.

3 Large bed surface

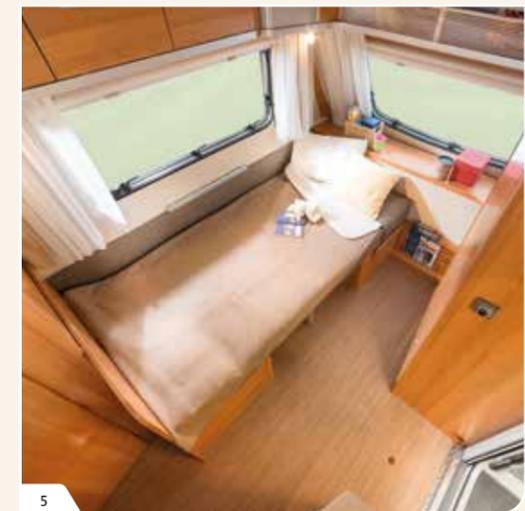

The roll-up slatted frame in the ERIBA Feeling 470 offers an extra-large sleeping surface – for more space or better quality sleep.

4 For bookworms

The cosy rear transverse bed in the ERIBA Feeling 425, with practical reading spotlights at the bed head.

5 Extra bed and storage space

All seating groups can be transformed as quick as a flash into a comfortable bed. The roomy seat boxes offer plenty of readily accessible storage space.

5

Kitchen comfort

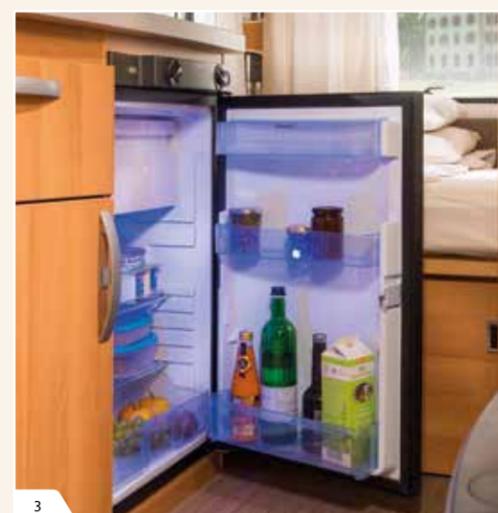

1

A good kitchen is the foundation of a happy holiday.

2

3

4

1 Compact holiday kitchen

The compact kitchen of the Feeling 450 has everything you need for a care-free holiday.

2 Clearly arranged

Keep your kitchen equipment clearly organised in the generous drawers complete with cutlery tray.

3 Chilled to perfection

The 80-litre refrigerator with separate, removable freezer compartment offers plenty of storage space.

4 Ample storage space

Hinged overhead storage cupboards offer plenty of storage for your food supplies.

Bathroom comfort

Stylish and storage-friendly.

1 Multifunctional bathrooms

The compact bathrooms of the ERIBA Feeling impress with their multi-functionality and feeling of spaciousness.

2 Well strapped in

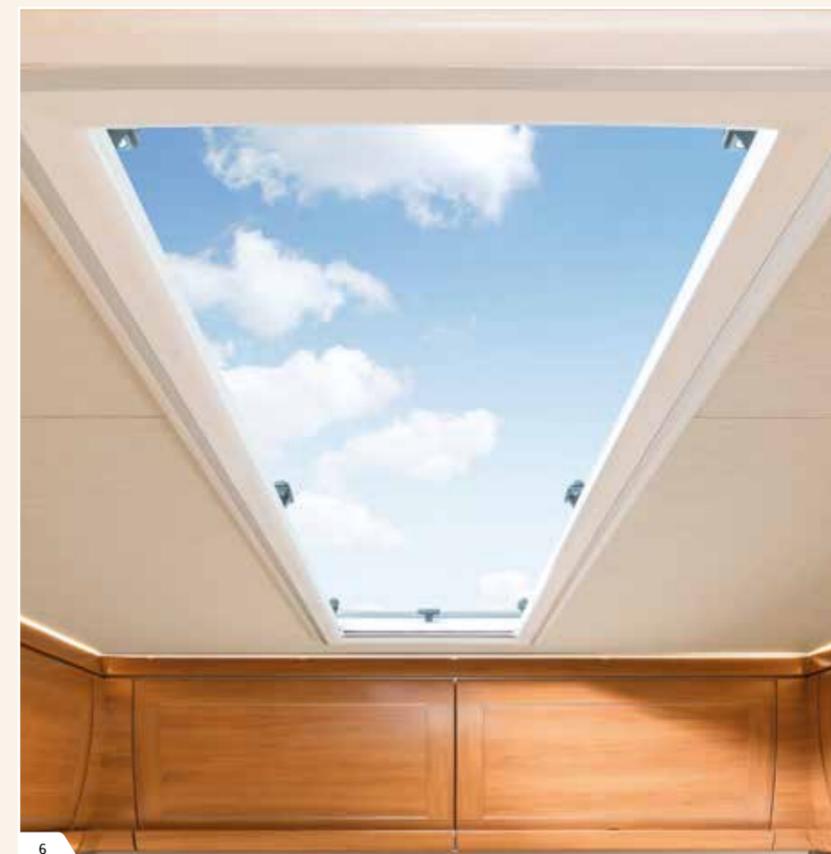

The elastic straps in the open compartments keep everything firmly in place when you're on the move.

3 Elegant toilet

The modern Thetford toilet – pictured here in the ERIBA Feeling 425 – positively invites you to take a seat!

Extra comfort to order

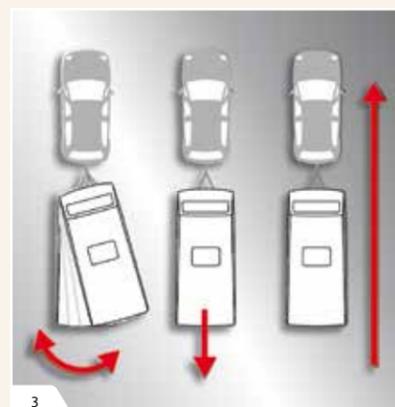

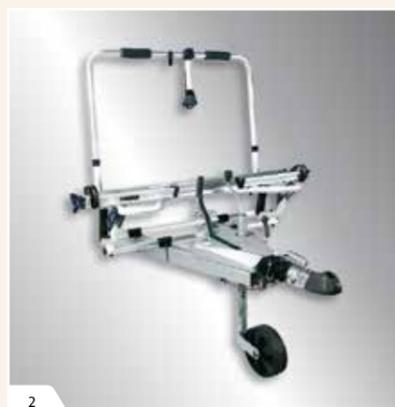

Want to add a more personal touch of class to your ERIBA caravan? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your ERIBA dealer will be happy to inform you about the complete range.

1

5

6

1 Sleep on top

The ERIBA elevating roof takes you right to the top. It offers an additional sleeping area – without having to convert the seating group – and also gives you a fantastic view.

2 Towbar bicycle rack

The Thule bicycle rack provides a secure space for bikes on the drawbar and folds back easily to allow access to the nose storage compartment.

3 No skid risk

The optional stability control system (ATC – Automatic Trailer Control) detects dangerous snaking movements in advance and initiates controlled braking in a fraction of a second to decelerate the trailer and stabilise the rig.

4 Smart manoeuvring

The AL-KO AMS MAMMUT manoeuvring system lets you park your caravan with minute precision – over sticks and stones or on a steep incline, even when there's no-one else around to help.

5 Dynamic look

The dynamic decals in Sierra grey metallic give your ERIBA a distinctive sporty appearance.

6 A bed with a view

The large panoramic rooflight (140 × 44 cm) above the rear beds floods the interior with light by day and provides a clear view of the stars at night. Like its counterpart in the living area, it comes with heat-insulating double glazing and a pleated blackout blind.

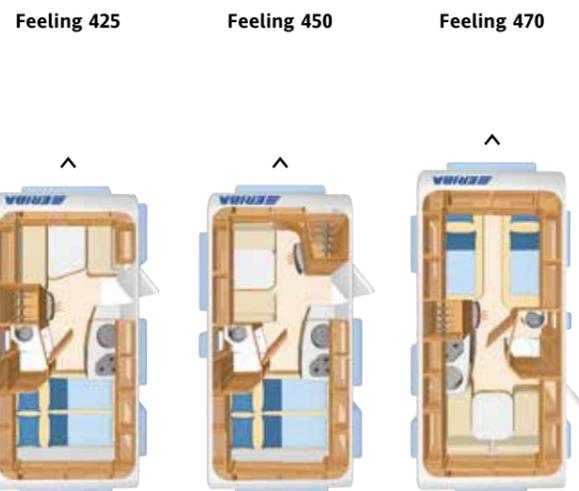

Illustrations for example purposes only.

OPT = Optional extras

Standard chassis:
AL-KO chassis

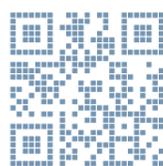

AL-KO

In the ERIBA caravans, the overall length and width, laden and unladen mass are optimally adjusted to the AL-KO chassis.

The ERIBA Exciting

Plenty of freedom for families.

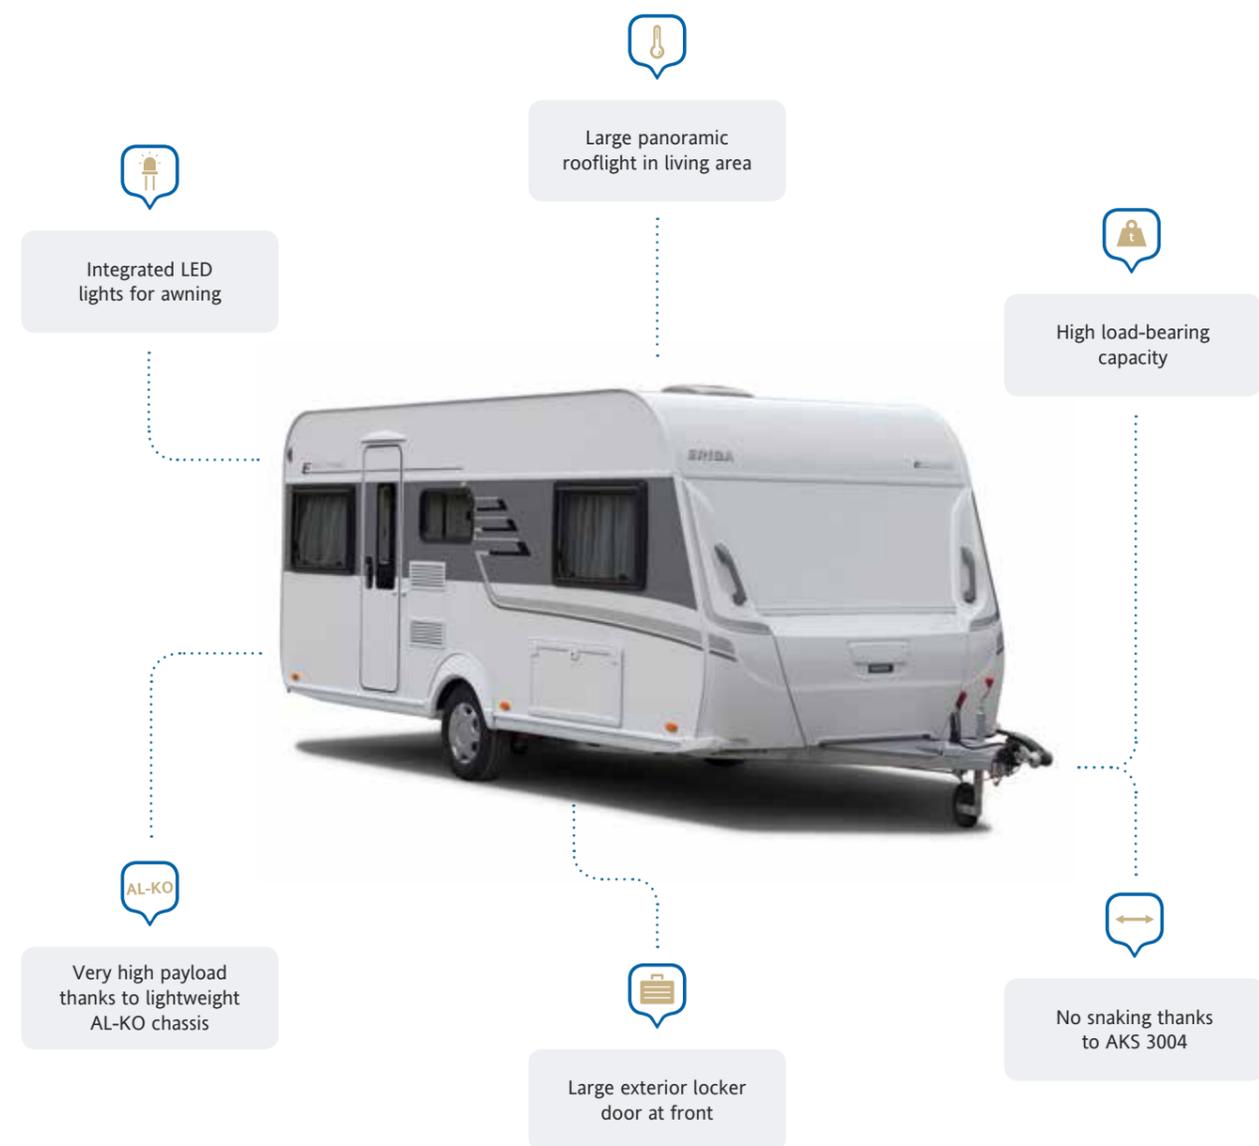

With its chic design and attractive colour scheme, the ERIBA Exciting will enthuse both the young and the young-at-heart caravanner. The ERIBA Exciting, with its anthracite design decals, radiates discreet excellence and dynamics. The same can be said about the interior of the vehicle. The living area radiates a cosy, homely atmosphere. And the sleeping area is also so comfortably designed that both large and small caravan fans can feel

comfortable here. With its bunk beds, the ERIBA Exciting is very child-friendly. In addition, plenty of storage and shelf space has been provided, which makes clearing up much easier. The compact kitchen also offers all essential equipment to prepare your own meals. The ERIBA Exciting – an all-round ideal vehicle for the whole family.

Features
Weight: 1,200 – 1,800 kg
Length: 6.53 – 8.05 m
Width: 2.30 / 2.50 m
Height: 2.58 m
Berths: 3 – 10

ERIBA Exciting Highlights

Everything for your well-being.

Further standard highlights: waste bin integrated in entry door, 56 × 115 cm garage door, all upholstery materials with HYMER stain protection, hot air distribution, smoke detector

The high comfort of the ERIBA Exciting is the result of basic equipment which is unparalleled in this class. Numerous exquisite features give the living area an exclusive flair. Here, the feel-good factor comes as standard – try it for yourself!

High loading capacity

The extra-long drawbar not only offers space for a drawbar carrier, but also has sufficient load-bearing capacity thanks to a nose weight of 100 kg.

Modern exterior design

Your ERIBA caravan is painted a bright white – classic, modern and neutral all at the same time. It complements your tow car to make a stylish rig. The attractive exterior design conceals a highly modern and sturdy sand-

wich-construction body comprising aluminium sheet and a highly insulating polystyrene core; the hail-proof outer roof skin is made of glass-reinforced plastic.

No snaking when driving

The anti-snake stabiliser (AKS 3004) with automatic overrun and auto-reverse mechanism corrects snaking as soon as it occurs and thus increases the safety margin.

Gas bottle access

The small service opening helps to open and close the gas bottles. Even if a wheel holder is fitted on the towbar, the bicycles need not be removed to operate the gas bottles.

Brightness by day and by night

The large panoramic rooflights in the living area let in plenty of direct daylight to create pleasant natural light conditions. At night, the integrated LED spotlights provide uniform lighting. The parallelogram rails allow ventilation even in bad weather.

Illustrations for example purposes only.

Living comfort

The whole family feels at home here.

1 Cosy atmosphere

The large rear seating group in Millau fabric finish (optionally available with additional stool) combined with the Legno Lombardo furniture finish radiates a feeling of cosiness.

2 Comfortable seating

In the ERIBA Exciting 470, here in the Rodez fabric design, you sit on comfortable upholstery with lumbar and knee support.

3 A place for everything

Thanks to the large wardrobe, shoe cupboard in the entrance and the new storage space above the door, the living area offers lots of storage options.

4 Great storage option

The sideboard, as seen here in the ERIBA Exciting 471, is accessible from above and from the front, offers space for a TV or coffee machine and has lots of storage space inside.

Sleeping comfort

An oasis of peace for sleepyheads.

1 Sleep like a queen

You can access the queen-size bed from either side. Storage surfaces on the sides and wardrobes on the left and right keep everything in order.

2 Sleep comfortably

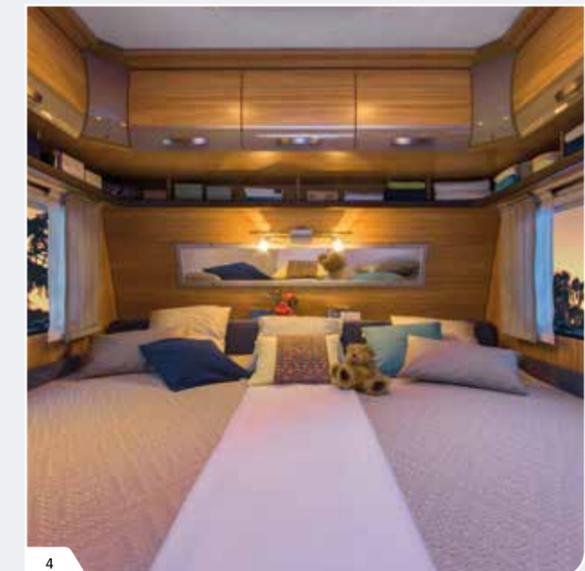

The double bed is absolutely enormous: 200 cm long and 150 cm wide. Equipped with a cold foam mattress and an attractive, removable drill cover.

3 Large play and lounging area

With the aid of the extendable slatted frame (option), the longitudinal twin beds can be quickly and easily turned into a large play and lounging area for the whole family.

4 Space for romance

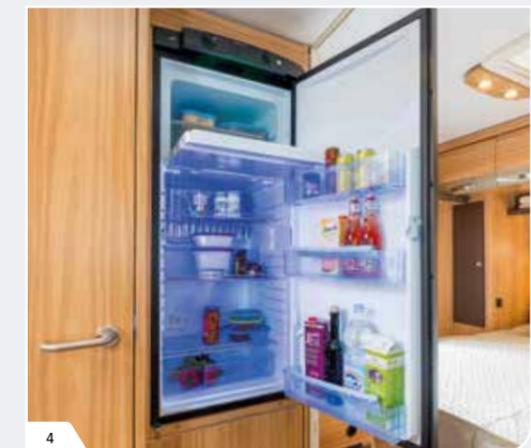

Ideal for romantic moments for two: the lounging area with the twin beds offers maximum comfort and plenty of space.

Kitchen comfort

Perfect equipment every mobile amateur chef dreams of.

1 Prepare meals like at home

The hob has a sturdy cast iron grid and can be supplemented with a high-quality Spinflo Duplex oven; the kitchen drawers are fitted with Servo soft-touch closing mechanisms.

2 Compact spaciousness

Compact, but fully equipped: the kitchen in the Exciting 470 has a large number of storage options and has an impressive integrated cutlery drawer.

3 Practical equipment

The removable basin waste integrated in the sink is very practical – as is the 3-ring hob with electric ignition, flame guard and glass cover.

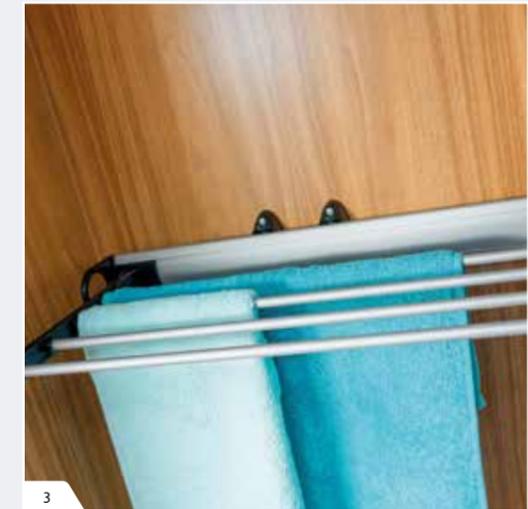

4 Convenient refrigerator

The lockable refrigerator has an integrated freezer compartment as well as flexible storage shelves and can be operated either with 12 V, 230 V or gas.

Bathroom comfort

Organisation is half the battle – also in the bathroom.

1 Compact – but mighty!

Everything you need – in a compact space which still gives you the feeling of spaciousness, thanks to the Legno Lombardo furniture finish.

2 Optional shower package

As can be seen here in the ERIBA Exciting 471, there is also an optional shower package available – consisting of a shower fitting and shower curtain on a rail.

3 Keeping dry

The towel rail puts an end to wet towels lying around. It offers space for many towels to keep everything neat and tidy.

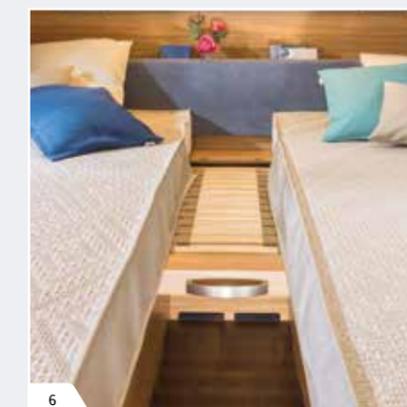

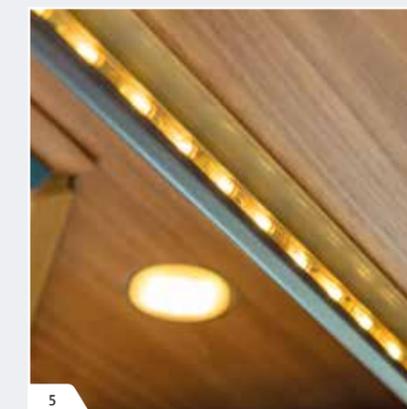

4 Absolutely family-friendly

The bathroom in the ERIBA Exciting 465 is family-friendly. Thanks to practical equipment components, all objects can be cleared away quickly and easily.

Extra comfort to order

Want to add a more personal touch of class to your ERIBA caravan? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your ERIBA dealer will be happy to inform you about the complete range.

1 Sleep on top

The ERIBA elevating roof brings you closer to the stars. It offers an additional sleeping area – without having to convert the seating group – and also gives you a fantastic view.

2 Warm in winter

The Arctic Package with ALDE hot water heater, underfloor hot water heater as well as styrofoam insulation and underfloor compartments in the seating group and bed areas keep the cold out and ensure pleasant temperatures. The grey water system is protected against frost.

3 More stability

The galvanized corner steadies provide ERIBA caravans with a stable stand and stability on any terrain. You can increase stability even more by fitting Big Foot steadies.

4 More than just a door

The entrance door becomes a practical furniture item with its stowage pockets and integrated waste bin. The optional insect screen roller blind keeps unwanted guests away.

5 Economical LEDs

The indirect mood lighting above the seating group lets you create a discrete evening mood in the caravan at the press of a button. Consumption remains very low thanks to the energy-saving LED light tube.

6 Large reclining space

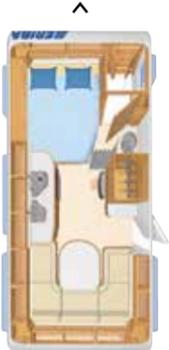

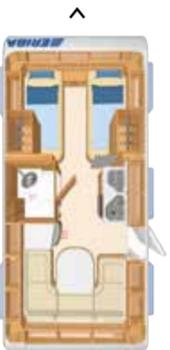

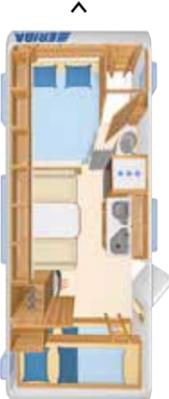

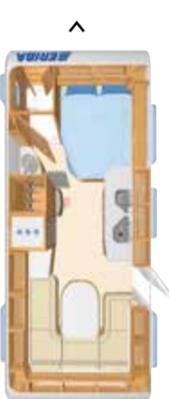

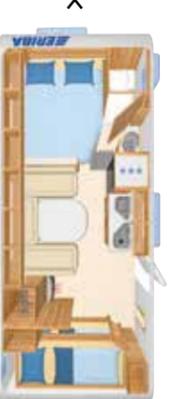

The optional rolled slatted frame for a larger bed area offers more space to sleep and therefore also more comfort.

Illustrations for example purposes only.

The ERIBA Nova Light

Compact comfort for the discerning.

How much holiday comfort can a compact class caravan offer? The ERIBA Nova Light gives you a totally new answer. With a body length of only about five metres, it comfortably accommodates four – with bags of space to move and the luxury equipment and quality level of an ERIBA Nova. Loads of storage space, lots of payload options as well as sufficient reserves in terms of space and safety guarantee that you reach your destination easily and

return safely too. To achieve this in the most relaxed way possible, the ERIBA Nova Light offers exemplary sleeping comfort with generously designed sleeping areas, cold foam mattresses, drill covers etc. and a comfortable, cosy living area. The functionally equipped kitchen area and the compact bathroom with its numerous storage spaces leave nothing to be desired.

Features

Weight: 1,200 – 1,500 kg

Length: 6.07 – 6.47 m

Width: 2.17 / 2.25 m

Height: 2.57 m

Berths: 3 – 4

ERIBA Nova Light Highlights

Fuel-saving, safe travel.

Further standard highlights: AL-KO AKS 3004 anti-sway coupling, panoramic rooflight (80 × 50 cm), LED awning light with motion detector

Comfort in the ERIBA Nova Light comes from practical basic equipment levels which are beyond comparison in this class. The typical Nova Light highlights give the living area an exclusive flair. Here, the feel-good factor comes as standard – try it for yourself!

**High loading capacity**

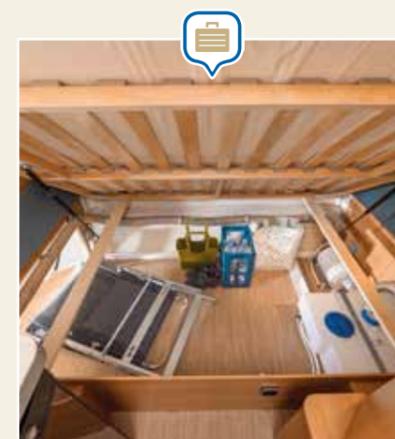

The extra-long drawbar not only offers space for a drawbar carrier, but also has sufficient load-bearing capacity thanks to a nose weight of 100 kg.

**Brightness by day and by night**

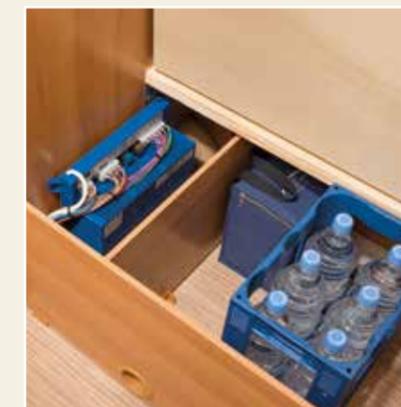

The large panoramic rooflights in the living area let in plenty of direct daylight to create pleasant natural light conditions. At night, the integrated LED spotlights provide uniform lighting. The parallelogram rails allow ventilation even in bad weather.

**Firm control**

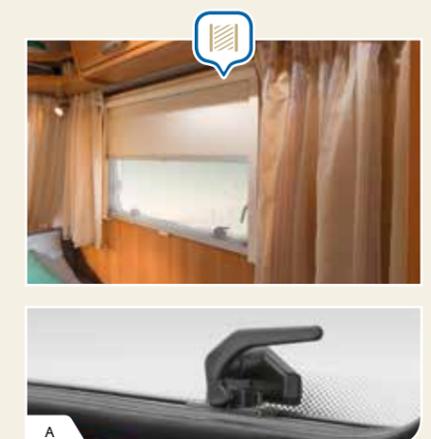

The sturdy grab handles on the front (A) and the continuous grab handle at the rear (B) offer a safe hold when you are manoeuvring the caravan. The rear handle runs along the entire width of the caravan so that several helpers can all pull together.

**Storage space galore**

All fixed beds open up wide and high-quality spring struts keep them safely in position when open. That way the huge bed boxes are easily accessible – both from inside the caravan and from the outside through the exterior locker door on the awning side.

**Protected installation**

All hot air ducts, water pipes and the entire on-board electrics are housed inside the vehicle to protect them from freezing. Thanks to the space-saving installation, the existing stowage space can be optimally used.

**Perfect multiple protection**

The tinted windows with acrylic double glazing not only provide sun protection and thermal insulation: they are also fitted as standard with insect screens and blackout roller blinds, plus safety locks (A) with vent position catches.

Illustrations for example purposes only.

Living comfort

Live like you do in your own four walls – only on wheels.

1 The feel-good factor

The living comfort is first class, the available space is amazing and the outer dimensions are compact – but you decide on where to “locate” this mobile apartment.

2 Relaxed view

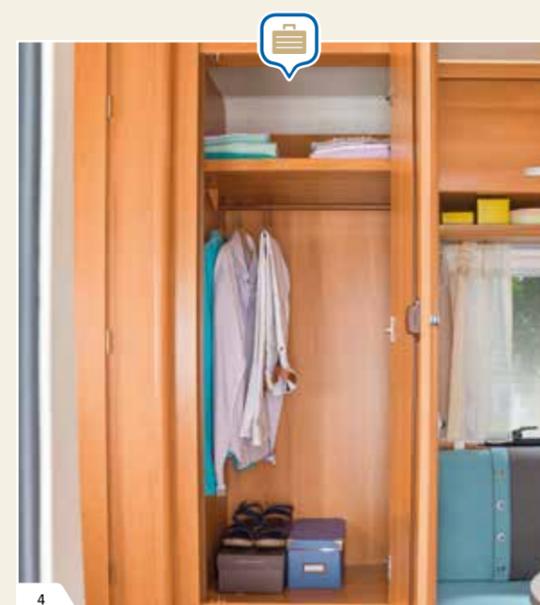

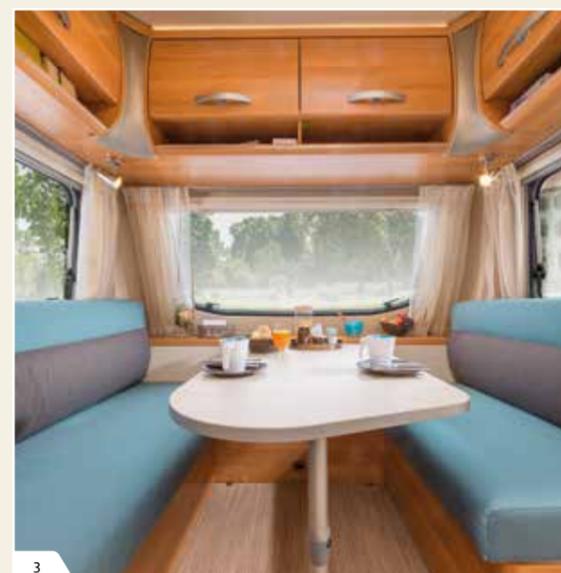

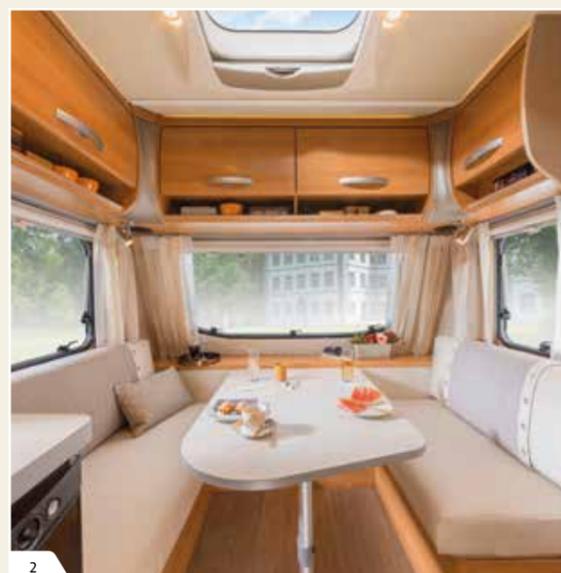

Enjoy the high seating comfort and clear view through the three large windows from the spacious dinette of the Nova Light 465.

3 Comfortable seating

Highly ergonomic padded backrests (option) provide extra seating comfort.

4 Ideal for long journeys

Thanks to the large wardrobe – as seen here in the Nova Light 425 – you are also ideally equipped for longer holiday journeys. The height-adjustable linen shelf is especially practical.

Sleeping comfort

Welcome to the world of sweet dreams.

1 The inner qualities which count

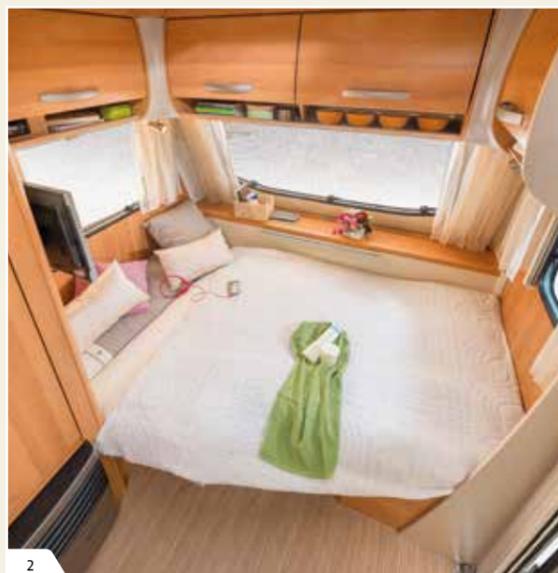

Compact external dimensions combined with high-quality equipment: the ERIBA Nova Light 465 with queen-size bed and multi-zone cold foam mattresses with removable drill cover.

1

2 Simple conversion

All seat cushions are shaped to allow sleeping and, when required, they can be quickly converted into comfortable beds, here in the Nova Light 425.

2

3 Sleep in comfort

As with all fixed beds, the longitudinal twin beds in the Nova Light 470 are equipped with Ergo wooden slatted frames.

3

4 Ample space above and below

The rear transverse bed in the Nova Light 425 conceals an enormous storage area under the spacious, comfortable sleeping area.

4

Kitchen comfort

1

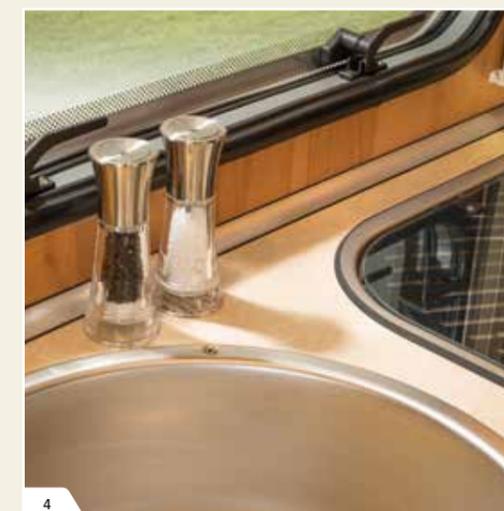

The ideal domain for all creative cooks on long journeys.

2

3

4

1 Chilled to perfection

The 80-litre refrigerator with separate, removable freezer compartment offers plenty of storage space.

2 Ideal cooking facilities

All the important items in a compact space in the ERIBA Nova Light 425: sink, 3-burner hob, refrigerator and practical storage space.

3 Secure storage

Everything at hand: plenty of storage space for kitchen equipment with a secure locking mechanism.

4 Everything is dry

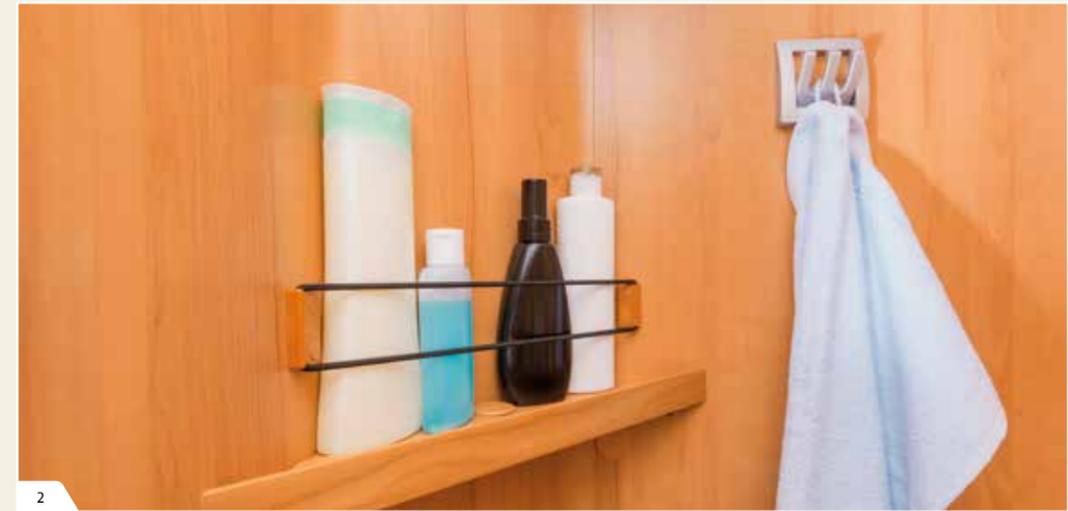

Functionality down to the smallest detail. The corner strip on the worktop prevents moisture from seeping behind the kitchenette.

Bathroom comfort

1

Stylish and storage-friendly.

2

3

- 1 Daily body care**

The compact bathroom leaves enough space for daily body care and offers space for the necessary accessories. The shower equipment can be supplemented with an optional shower head and shower curtain.
- 2 Firm hold**

The elastic straps in the open compartments keep everything firmly in place when you're on the move.
- 3 Conveniently and safely stored**

Additional lockable storage cabinets offer lots of space for care and beauty products of all kinds – toothbrush mugs, shavers and lots more besides.

Extra comfort to order

1 Omnistor roof awning

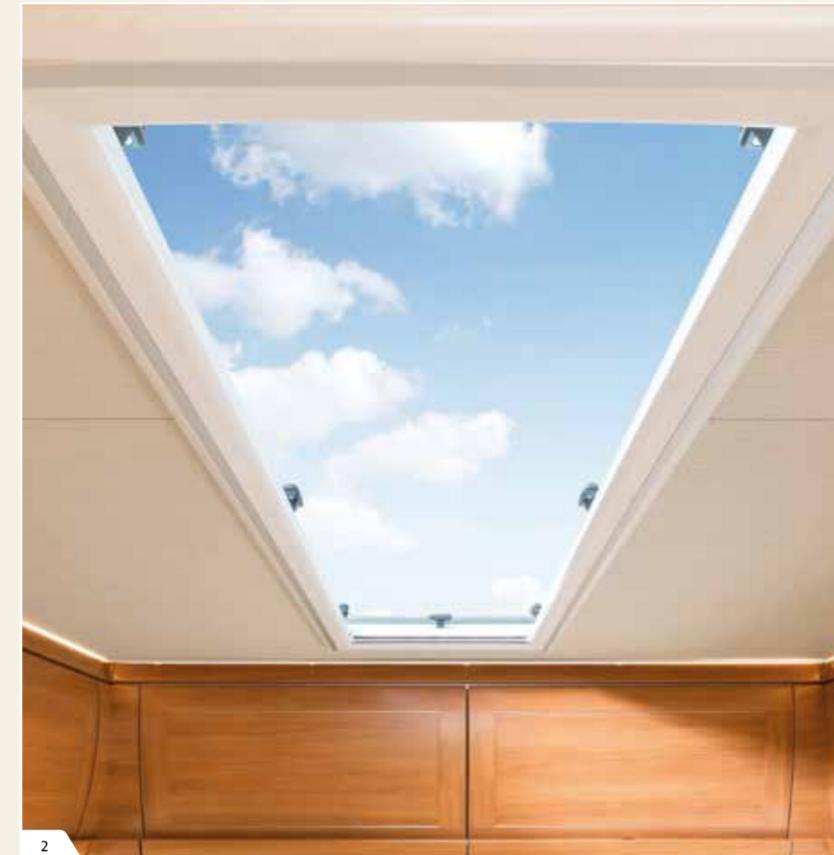

The lightweight, elegant Omnistor 6200 jointed awning offers optimum protection against the sun and rain. The space-saving awning is adapted to the rounded shape of the roof without making the caravan any wider.

2 A bed with a view

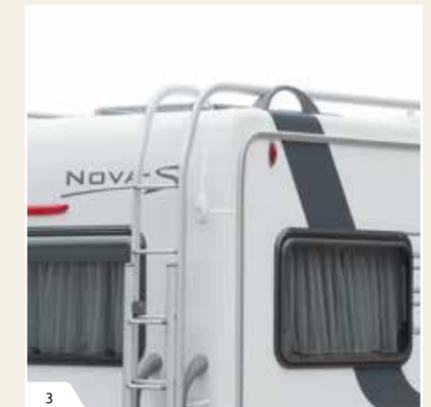

The large panoramic rooflight (140 × 44 cm) above the rear beds floods the interior with light by day and provides a clear view of the stars at night. Like its counterpart in the living area, it comes with heat-insulating double glazing and a pleated blackout blind.

3 Safe roof transport

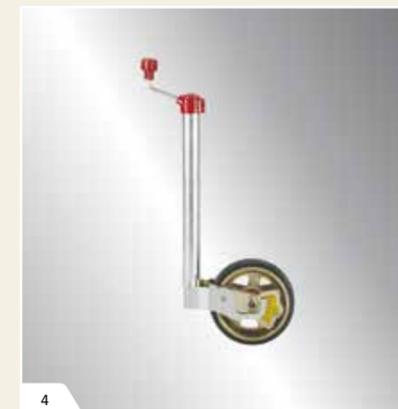

The robust roof rails with integrated rear ladder provide easy access to the useful roof area. Large equipment for water and winter sports can be easily and safely lashed down here.

2

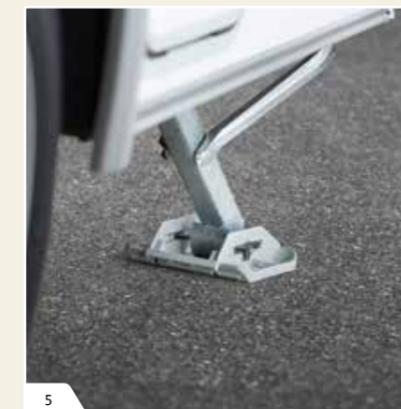

3

4

4 Towbar jockey wheel

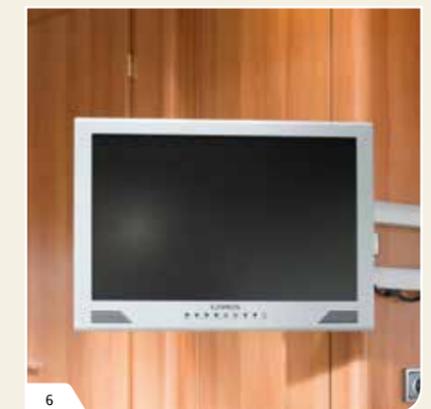

The AL-KO Premium jockey wheel with its integrated nose load gauge offers you the certainty that you always have the optimum towbar weight when travelling.

5

5 More stability

The galvanised corner steadies provide ERIBA caravans with a stable stand and stability on any terrain. You can increase stability even more by fitting Big Foot steadies.

6

6 Wired for radio and TV

The multimedia package provides additional convenience with a 19" TFT screen (including bracket), a radio and DVD player, two or four loudspeakers (depending on the model) and the necessary wiring.

Want to add a more personal touch of class to your ERIBA caravan? There are a wealth of attractive extras available to customise your van. Below are just a few of them – your ERIBA dealer will be happy to inform you about the complete range.

In the ERIBA caravans, the overall length and width, laden and unladen mass are optimally adjusted to the AL-KO chassis.

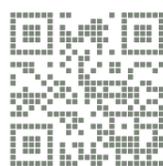

raum+system

The new ERIBA Nova GL –
now with the innovative
raum+system for extra comfort
and freedom of movement

raum+system

The ERIBA Nova GL

Visually stunning – impressively practical.

10 years on, two brand new models are being added to the ERIBA series: the ERIBA Nova GL and the ERIBA Nova SL. Both boast a modern design, unique comfort features and top functionality combined with excellent practicality. The Nova GL caters to the tastes of the modern caravanner, with brighter colours, the Legno Lombardo wood finish, plain surfaces and simpler structures and furniture. The innovative ERIBA raum+system guar-

antees even more space and freedom of movement within the same dimensions. Highlights of the new Nova generation include its outstanding body shell design, separate dressing room, practical new service installation systems and absolute winter resistance. We think we've built the best caravan ever – take a look and see if you agree!

Features
Weight: 1,400 – 2,000 kg
Length: 6.90 – 8.00 m
Width: 2.30 / 2.40 m
Height: 2.62 m
Berths: 4 – 6

ERIBA Nova GL highlights

Perfection down to the last detail.

Other standard highlights: mud flap, AL-KO AKS 3004 anti-sway coupling, 40 × 40 cm rooflight above, cold-foam mattresses with removable drill covers, LED awning light with motion detector, Truma-Therme hot water supply

The high standard of comfort of the ERIBA Nova GL comes courtesy of a practical basic equipment package which is unrivalled in this class. The typical ERIBA Nova GL features give the living area an exclusive flair. Here, the feel-good factor comes as standard – try it for yourself!

Amazing space

The new front section is a triumph of design: easy access thanks to the ergonomic swivel flap with low loading edge and plenty of space for the bike rack, rollable grey water tank and two 11 kg gas cylinders.

Integrated awning rail

The awning rail integrated in the side wall allows quick, easy and secure assembly of awnings or sun canopies. The innovative rail is also flush-mounted in the exterior wall for improved aerodynamics.

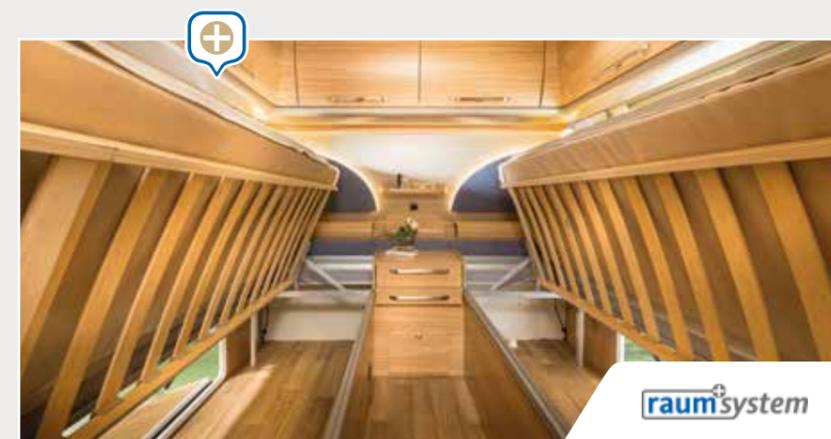

Brightness by day and by night

The large panoramic rooflights in the living area let in plenty of direct daylight to create pleasant natural light conditions. At night, the integrated LED spotlights provide uniform lighting. The parallelogram rails allow ventilation even in bad weather.

Efficient air circulation

All overhead storage cupboards have a void at the back through which warm air can circulate freely. That way major temperature variations and unwanted condensation in the interior can be avoided.

Systematic space saving

The innovative raum+system of the new ERIBA Nova GL gives you even more space and comfort within the same dimensions. Completely clear stowage spaces, large overhead storage cupboards and the cellar space below the

beds and seating ensure a huge amount of extra storage. The raum+system also accommodates two-metre-long beds, U-shaped comfort seating and a dressing room.

Illustrations for example purposes only.

Living comfort

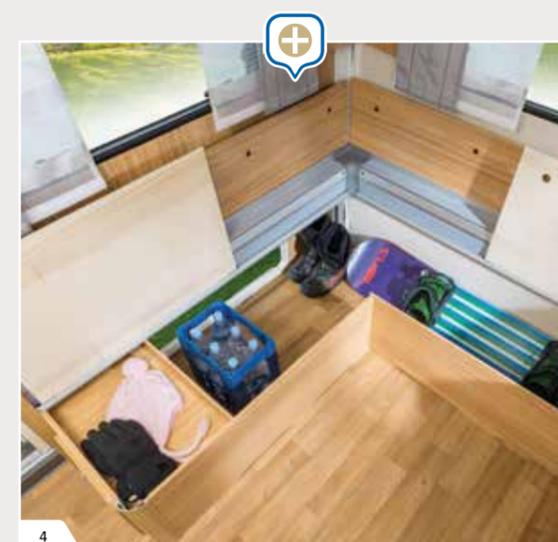

Treat yourself to a little luxury.

1 Home from home

The Nova 545 GL feels almost like your living room at home thanks to the seating group in Maraldi upholstery fabric and trendy Legno Lombardo furniture finish.

2 Relaxed seating posture

The comfortable seating area allows a relaxed, healthy seating posture even for extended periods of time: your back, spine and knees will thank you for it! Pictured here is the option with rounded seat cushions in the Santorin fabric design and Legno Lombardo furniture finish.

3 Trentino style theme

The ERIBA Nova GL is also optionally available in the Trentino style theme and Varuna fabric combination. The open shelving is highly practical for storing books, etc.

4 raum+system

Thanks to the raum+system with installation ducts, the storage spaces are kept completely clear. All the plumbing and wiring is well concealed in the installation duct.

Sleeping comfort

*Perfect sleeping quarters
for weary travellers.*

1 Intelligent bed design

Instant comfort: the ingenious bed assembly takes no time at all, while the Legno Lombardo furniture finish provides a pleasant ambience.

2 Extra-large sleeping area

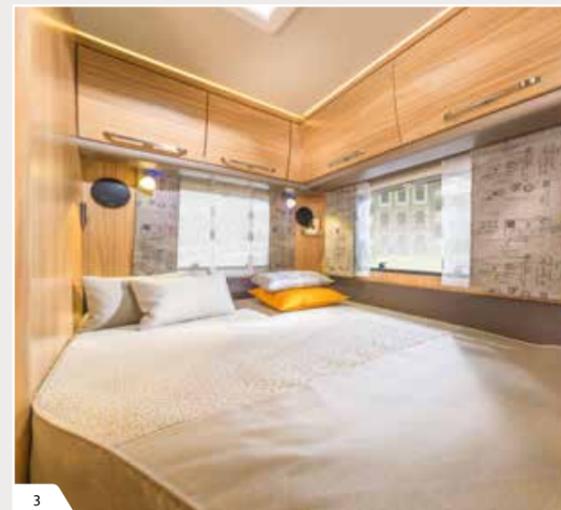

Thanks to the roll-up slatted frame – seen here in the ERIBA Nova 540 GL – you can enlarge the sleeping area in a few easy steps.

3 Just like at home

The removable, washable drill covers conceal high-quality cold-foam mattresses that guarantee home-from-home sleeping comfort.

4 Simple conversion

All seat cushions are ergonomically designed and can be converted to comfortable beds at the drop of a hat – as seen here in the ERIBA Nova 465 GL with optional extra cushions.

Kitchen comfort

Everything the creative cook desires.

1 Complete kitchen studio

The kitchen in the Nova 545 GL has it all: an optional Aspire cooker, 146-litre Smart-Tower refrigerator and sturdy drawers with Servo-Soft closure.

1

2 More power points

The Nova 465 GL kitchen accommodates all the main electrical appliances, e.g. mixer, kettle and toaster.

2

3 A great combination

The new 3-burner hob/sink combination comes with a safety ignition system, is easy to clean and includes a work surface in the front section for food preparation.

3

Bathroom comfort

With style and plenty of stowage space.

1 Secure storage

The bathroom in the ERIBA Nova 530 GL boasts a wealth of open and closed shelving and cupboards for secure storage of all your items.

2 Neat and tidy

No more wet towels on the floor – thanks to the handy triple towel rail.

3 Bath and shower room

An oasis of well-being and a real eye-catcher: the side bathroom in the Nova 465 GL with bamboo wall decals, indirect lighting and LED spotlight.

Extra comfort to order

Want to add a more personal touch of class to your ERIBA caravan? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your ERIBA dealer will be happy to inform you about the complete range.

1

2

3

4

5

6

1 Accurate support

The ERIBA comfort sleeping system with high-quality disc-spring bed frames maximises the benefits of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep.

2 Practical storage box

The practical, lockable box is ideal for stowing all kinds of equipment, from snowboard and skis for your winter holidays to the awning in summer.

3 Optimal leak-tightness

The caravan roof is made from robust aluminium with no longitudinal seams so that water cannot penetrate from above. The optional GRP roof coating provides additional weather and hail protection, preventing mechanical damage to the roof surface.

4 Smart multimedia

We guarantee you'll never be bored even in bad weather: with the ERIBA multimedia packages you can enjoy a film on the 22-inch flat screen with top image and sound quality, for example.

5 Round or square

It's a well-known fact that tastes vary, so the new ERIBA Nova offers two types of seating cushions: square in the GL, and rounded in the SL. This SL version can also be ordered for the GL.

6 Alternative style theme

The ERIBA Nova GL is also available in the Trentino style collection on request. This includes the slightly warmer looking Trentino pear wood furniture finish along with bi-coloured flaps and black chrome handles.

Illustrations for example purposes only.

raum+system

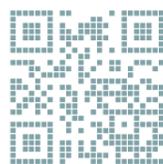

The new ERIBA Nova SL –
now with the innovative
raum+system for extra comfort
and freedom of movement

raum+system

The ERIBA Nova SL

Supreme design with perfect functionality.

10 years on, two brand new models are being added to the ERIBA series: the ERIBA Nova GL and the ERIBA Nova SL. Both boast a modern design, unique comfort features and top functionality combined with excellent practicality. The Nova SL has a classically stylish look featuring the Trentino pear wood furniture finish and radiates cosiness with its warm red shades. The innovative

ERIBA raum+system guarantees even more space and freedom of movement within the same dimensions. Highlights of the new Nova generation include its outstanding body shell design, separate dressing room, practical new service installation systems and absolute winter resistance. We think we've built the best caravan ever – take a look and see if you agree!

Features
Weight: 1,400 – 2,000 kg
Length: 6.90 – 8.00 m
Width: 2.30 / 2.40 m
Height: 2.62 m
Berths: 4 – 6

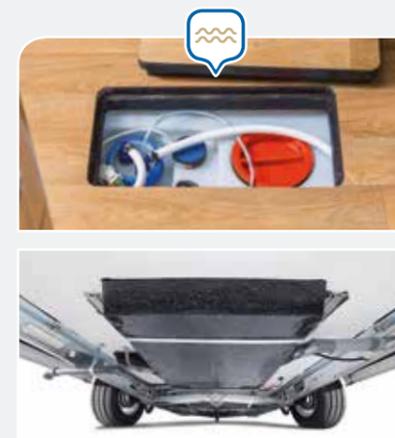

ERIBA Nova SL highlights

Perfection down to the last detail.

Other standard highlights: AL-KO Big Foot steady, panoramic 80 × 50 cm rooflight, large exterior locker door 100 × 40 cm, 12-V LED lighting, comfort bathroom with separate shower compartment (depending on model)

The high standard of comfort of the ERIBA Nova SL comes courtesy of a practical basic equipment package which is unrivalled in this class. The typical ERIBA Nova SL features give the living area an exclusive flair. Here, the feel-good factor comes as standard – try it for yourself!

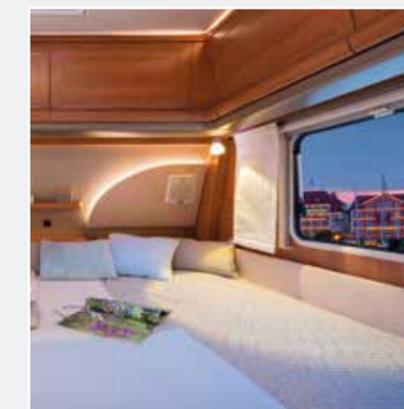

Double advantage

The 50-litre fresh water tank is installed under the floor inside a heated, insulated GRP shell for frost protection. It is positioned so as to ensure improved handling and more space for stowage.

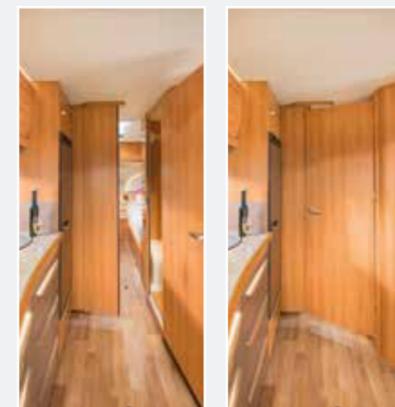

More than just a door

In the ERIBA Nova SL, the door is much more than just a way in. Not only is it perfectly insulated thanks to the plastic frame – it also comes with every convenience feature, e.g. window, clothes hook, waste bin and insect screen.

Atmospheric lighting

The atmospheric ambient lighting, the separately controlled reading light and the stylish and practical shelving at the head of the bed provide all the ingredients for spending a cosy evening reading or simply snuggling down in your mobile home.

Practical interior concept

The living and sleeping area can be effectively separated via the practical wooden sliding door. In the Nova SL models with twin beds, this creates a large dressing room with separate access to the cupboard and bathroom.

Systematic space saving

The innovative raum+system of the new ERIBA Nova SL gives you even more space and comfort within the same dimensions. Completely clear stowage spaces, large overhead storage cupboards and the cellar space below the beds

and seating ensure a huge amount of extra storage. The raum+system also accommodates two-metre-long beds, U-shaped comfort seating and a dressing room.

Illustrations for example purposes only.

Living comfort

Caravanning with a touch of luxury.

1 Comfy seating

The U-Plus seating area with the Castello fabric combination in the Nova 545 SL is exceptionally comfortable thanks to the comfort seat and backrest cushions with extra lumbar support. The single-column table leg ensures easy access from all sides.

2 Romantic flair

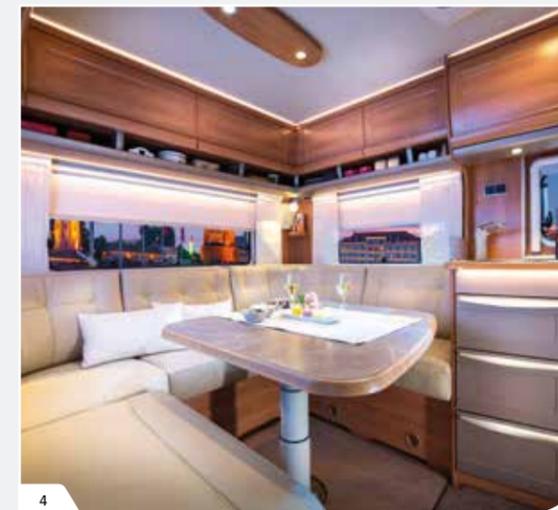

In the ERIBA Nova 545 SL, the furniture suite in the Madagascar leather/fabric combination together with the illuminated wineglass shelf by the entrance creates a romantic lounge atmosphere.

3 Simple conversion

The seating unit can be easily converted into a bed: simply lower the bed using the telescopic table leg and place the extra cushion on top.

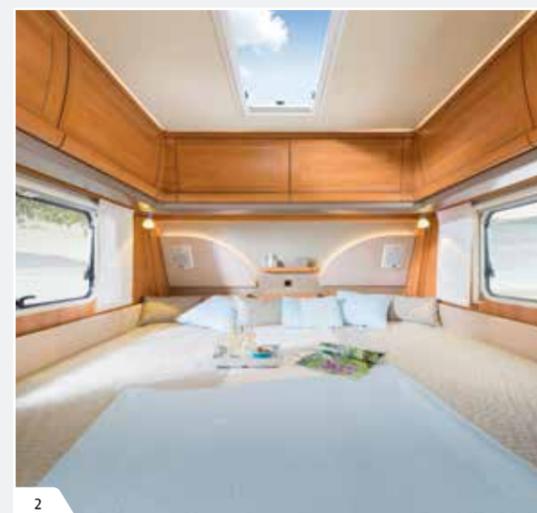

4 Convivial atmosphere

The ambient lighting, supplied as standard, makes for a cosy atmosphere in the evenings – perfect for playing games or socialising (pictured here is the Nova 540 SL in Leather Pebble fabric design).

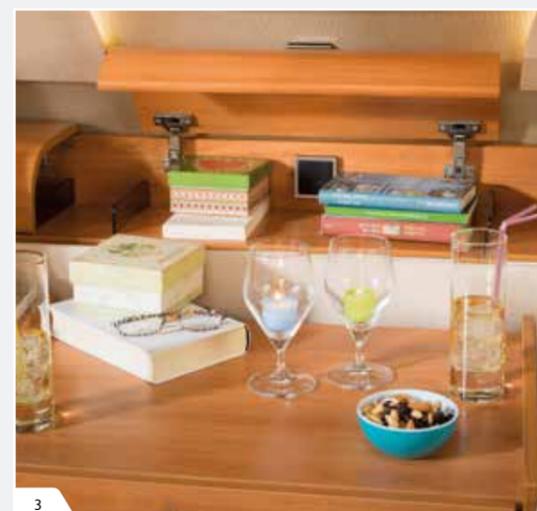

1

2

3

4

Sleeping comfort

An oasis of repose for weary travellers.

1 Dreamy twin beds

Sweet dreams are made of these: two-metre-long twin beds with cold-foam mattresses, ergonomic wooden slatted frames and removable drill covers.

2 Rolled into one

The two single beds can be transformed into an extra-large bed in an instant using an optional roll-up slatted frame.

3 Ideal for bookworms

Relax with a good book thanks to separately controllable reading lights and practical shelving at head height. A socket is also provided.

4 Extra guest bed

You can make an extra bed out of the seating unit by simply lowering the table via the telescopic single-column table leg.

Kitchen comfort

Perfectly equipped for the mobile hobby chef.

1 Raised refrigerator

The Smart-Tower refrigerator with 146-litre capacity and separate freezer compartment is raised in the Nova SL. The microwave oven is available as an optional extra.

2 Gas or electricity

The Thetford Aspire hob and oven combination is available as an optional extra – with grill compartment, three gas burners and one hotplate.

3 Space for kitchen equipment

The generous kitchen in the Nova 545 SL offers a range of different storage options, from drawers with Servo-Soft closing mechanisms and secure metal closures to floor cupboards with heavy-duty bottoms.

Bathroom comfort

1

Bathroom with integrated full shower.

2

1 **Functional bathroom**

The top-quality furniture finish and close attention to details such as ceiling spotlights and the optional wooden slatted floor insert in the shower create a luxurious and expansive feeling of space. Large mirrors and shelving make for a generous and functional bathroom in the ERIBA Nova.

2 **Luxury shower**

The bathroom of the ERIBA Nova SL is also optionally available with the luxury shower fitting, for conversion to a proper shower. High-quality materials and top design leave no wish unfulfilled.

3 **Roomy cupboard**

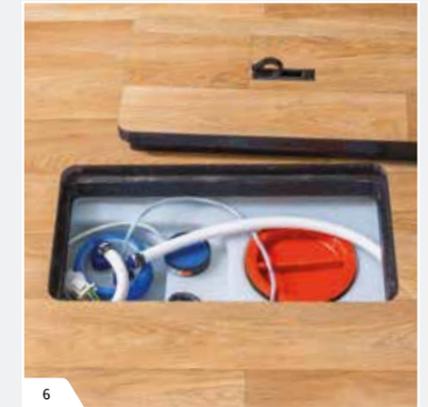

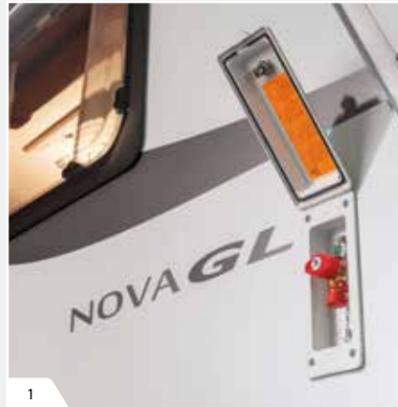

The impressively spacious cupboard comes with closed and open shelves – the latter fitted with guard rails, needless to say.

3

Extra comfort to order

Want to add a more personal touch of class to your ERIBA caravan? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your ERIBA dealer will be happy to inform you about the complete range.

1 Safe gas connection

The handy external gas socket with stopcock is ideal for barbecuing outside the van. That way you can connect your gas barbecue directly to the tap drawing from the gas bottle at the front.

2 City water connection

The ideal solution for luxury caravanners who need plenty of water for cooking, showering or washing: the City water connection provides a convenient way to tap into the campsite supply.

3 A bed with a view

The large panoramic rooflight (140 × 44 cm) above the rear beds floods the interior with light by day and provides a clear view of the stars at night. Like its counterpart in the living area, it comes with heat-insulating double glazing and a pleated blackout blind.

4/5 Ideal climate

The Dometic FreshJet is the most compact and lightweight climate control system of its class. With its four air outlets, it ensures pleasant air distribution. The high-performance and low-noise roof-mounted air conditioner with dimmable LED lighting can be operated by remote control.

6 Perfect insulation

Like the fresh water tank, the 50-litre grey water tank is also installed under the floor, protected from frost inside a heated and insulated GRP shell.

7 Hot water

The ALDE hot-water heating system with integrated 8.4-litre boiler and 3000W electric heating element together with the hot-water floor heating system make your caravan fully winter-proof. Three heating circuits ensure a pleasant, even warmth distribution.

Illustrations for example purposes only.

OPT = Optional extras

The ERIBA Nova S

Pure luxury for unlimited comfort.

Perfect appearance. The exterior in Carrara White finish underlines the high quality of the ERIBA Nova S. Rounded shapes PUAL construction elements connect the roof and walls – a mark of advanced technology. The elegant exterior appearance is continued inside. The standard highlights such as the energy-saving LED lighting and important safety components mark the difference. This is enhanced by exclusive living comfort, comfortable

seating groups and a lot of useful accessories. The sleeping area impresses with first-class lying comfort and lots of storage space. There is also a perfect kitchen design, a generous bathroom complex in an elegant design as well as numerous practical optional extras. The ERIBA Nova S is an exclusive top class vehicle refined right down to the very last detail!

Features

Weight: 1,700 – 2,500 kg

Length: 7.36 – 8.82 m

Width: 2.30 / 2.40 / 2.50 m

Height: 2.62 m

Berths: 4 – 6

ERIBA Nova S Highlights

Practical, sophisticated equipment elements.

The high comfort of the ERIBA Nova S is the result of basic equipment which is unparalleled in this class. Numerous exquisite features give the living area an exclusive flair. Here, the feel-good factor comes as standard – try it for yourself!

**Efficient air circulation**

All overhead storage cupboards have a void at the back through which warm air can circulate freely. That way major temperature variations and unwanted condensation in the interior can be avoided.

**Economical LEDs**

The indirect mood lighting in the overhead storage cupboards allows you to create a subtle evening ambiance at the touch of a button. Power consumption is very low, thanks to energy-saving LED technology.

**Distinctive lightness**

The high-quality aluminium rims afford the caravan additional individuality and class even on the outside. Due to its low weight, the payload reserves are also increased.

**Brightness by day and by night**

The large panoramic rooflights in the living area let in plenty of direct daylight to create pleasant natural light conditions. At night, the integrated LED spotlights provide uniform lighting. The parallelogram rails allow ventilation even in bad weather.

**High-tech in the kitchen**

The full-height TEC Tower is the ultimate in modern kitchen equipment. It comprises a fridge freezer unit (160 litres), oven and grill in a timeless classy design and impresses not only in terms of looks but also as a versatile helper.

Illustrations for example purposes only.

Further standard highlights: AL-KO AKS 3004 anti-snake coupling, entrance door with window, 80 × 50 cm panoramic rooflight, 100 × 40 cm exterior storage compartment flap, 45l water tank, 22l grey water tank, kitchen extractor fan, wooden slat grating in shower

Living comfort

Top-quality living comfort in a luxury caravan.

1 All wishes fulfilled

From the modern design down to the last detail: the ERIBA Nova S is the pinnacle of caravan design and leaves no wishes unfulfilled.

2 Well-planned out details

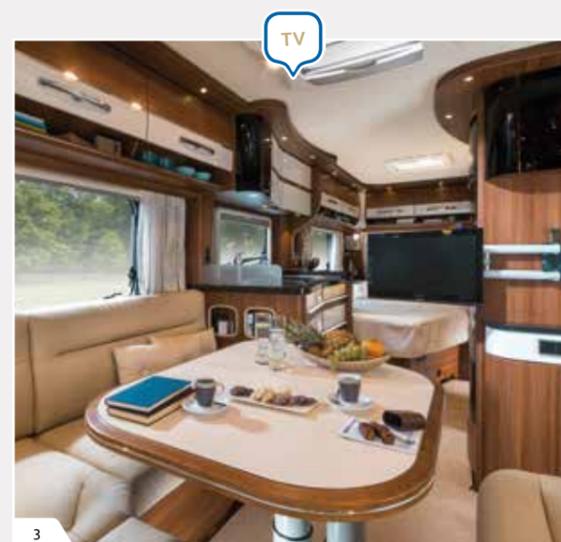

The sideboard is just one of many well-planned out details for maximum functionality with an attractive design – here in the Nova 690 S in leather pebble design.

3 On-board entertainment

With the movable wall bracket, you can quickly and easily place the high quality flat screen in the ideal position for well-placed entertainment.

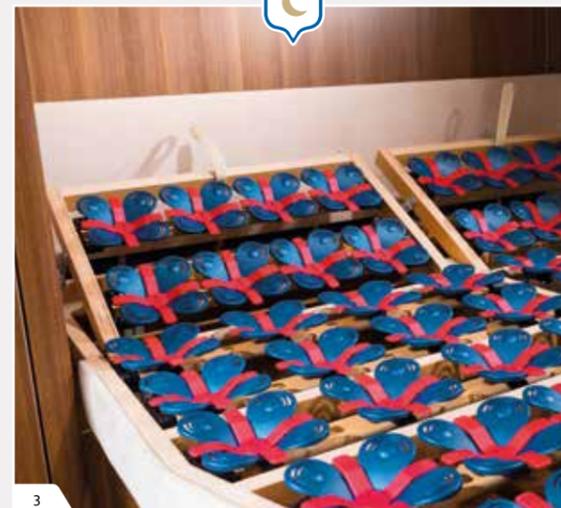

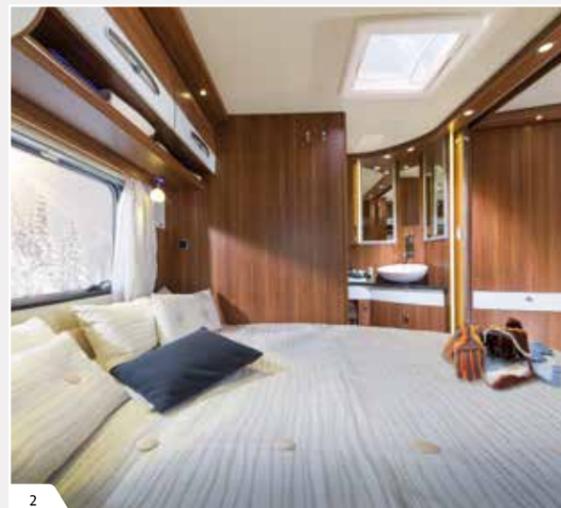

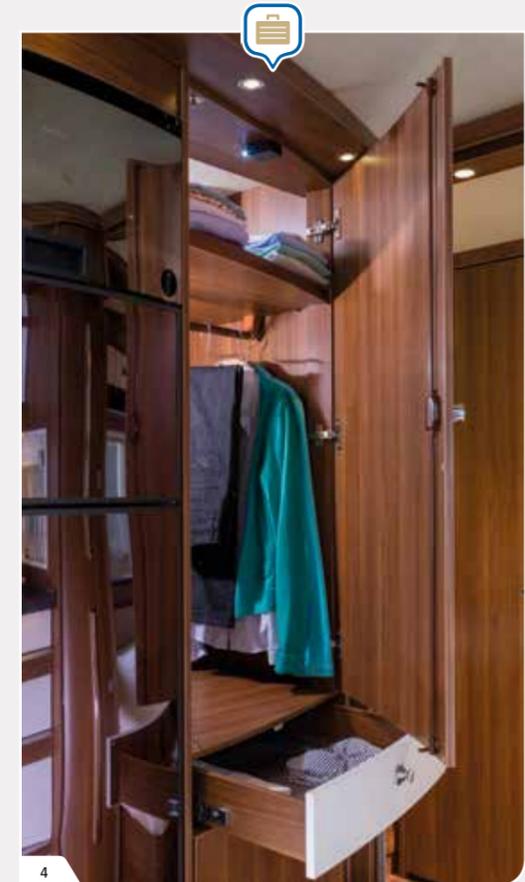

4 Room for long legs

Mobile lounge in Himalaya fabric design: here, you and your guests can comfortably and with lots of legroom – thanks to the sturdy, adjustable single-column table leg.

Sleeping comfort

Sleep in style.

1 Perfect sleeping enjoyment

The fixed bed of the Nova 485 S offers you maximum sleeping comfort with its first class cold foam mattresses with drill covers.

2 Comfortable care for the soul

After a long holiday day, simply unwind: the large rear bed with the Ergo wooden slatted frame in the Nova S 690 is ideal for this.

3 Sleep like a baby

The ERIBA sleeping comfort system with high-quality cup slatted frame ideally emphasises the advantages of the multi-zone cold foam mattresses. Each area of the body is supported with the ideal counter-pressure for snug and restful sleep.

4 Space for your holiday wear

To match the excellent sleeping comfort, the large wardrobe in the Nova S 545 impresses with its clearly organised space for all your holiday wear and the practical drying drawer.

Kitchen comfort

A paradise for ambitious cooks.

1 Perfect space arrangement

The ERIBA Nova S 690, here in the Noce Torino furniture finish, guarantees maximum kitchen comfort behind classically elegant fronts: servo-soft drawers, large cutlery tray, pull-out cupboard, spice rack; plus LED spotlights above the work surface.

2 Quick to hand

The high-quality cutlery tray for the kitchen drawer is available as an option, and makes it easy to find knives, forks, spoons and the bottle opener.

3 Modern combination

Fitted as standard in the ERIBA Nova is the modern TEC-Tower. The combination of refrigerator with freezer compartment (160 litres), oven and grill is a real hit.

Bathroom comfort

1

Stylish and exceptionally roomy.

2

1 Complete luxury

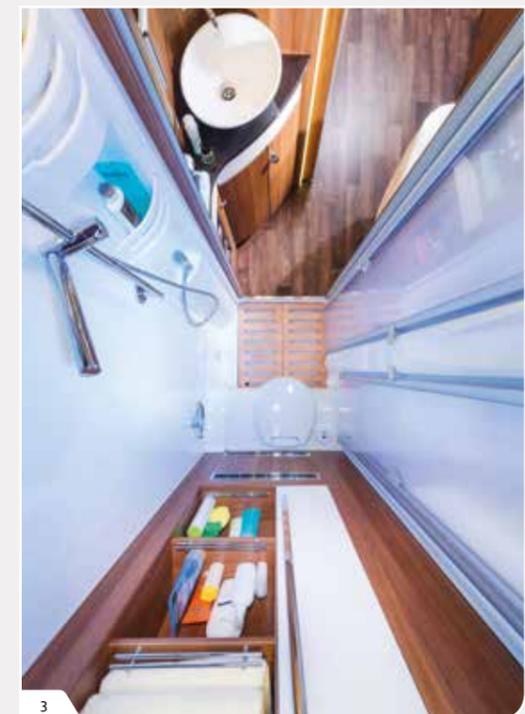

More bathroom luxury is impossible: a noble design, high-quality materials, clever storage options and superior functionality.

2 Neatly separated

The bathroom in the Nova S 590 can be partitioned off from the living area with a sliding wooden door. The toilet-area is also equipped with a sliding door.

3 Brilliantly equipped

With optional luxury equipment, the shower shines out in this ERIBA Nova S 690.

3

Extra comfort to order

Want to add a more personal touch of class to your ERIBA caravan? There is a wealth of attractive extras available to customise your van. Below are just a few of them – your ERIBA dealer will be happy to inform you about the complete range.

1 Build an extension to your caravan!

Especially for your ERIBA Nova S, we have developed the “ERIBA Nova S” awning in co-operation with the awning specialist “Isabella”. It can be set up very easily and is equipped as standard with the lightweight CarbonX frame. The front and side sections can be removed

and/or folded up to form a veranda. Also included as standard are a matching awning carpet, two storm straps and a HerculesTwin pole tensioner. Top equipment, as you are used to in your Nova S. The awning measures 300 cm deep.

2 Easy manoeuvring

With the fully automatic manoeuvring aid Mover XT from Truma, the ERIBA Nova S can be steered exactly and very easily without effort, for example when parking.

3 Safe roof transport

The sturdy roof railing with integrated rear ladder makes the roof area easily accessible and usable. Large equipment for water and winter sports can be easily and safely lashed down here.

4 Warm in winter

The ERIBA Nova S contains the best winter genes with the PUAL body technology. This is supplemented by Arctic equipment such as ALDE hot water heating, underfloor heating, insulated grey water pipes, winter cover etc.

5 Romantic outlooks

From dinner by starlight to breakfast at sunrise – the optional panoramic front window above the seating group gives you unique holiday vistas – guaranteed.

HYMER original parts & accessories

A perfect match. We are constantly developing innovative new solutions for our customers. You can find the full range at www.hymer-original-parts.com. Easy to use, informative and relevant to your vehicle. Your HYMER dealer will be happy to advise you.

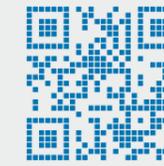

The new HYMER E-Bike

Whether for the campsite, city shopping or more demanding cycling tours, the new HYMER E-Bike gives you infinite mobility. The 20-inch HYMER E-Bike is supplied fully equipped. Included in the price are a large battery (BOSCH GEN 2 Active Line 400 Wh), sprung seat post, Ortlieb bag in HYMER design with Quick Snap

fastening and ABUS combination lock. Besides a dead weight of just 21 kilos, the HYMER E-bike boasts Ergo Grips, wide tyres, folding pedals, folding handlebars and a battery range of up to 105 km plus LED lights, making it a genuine premium product.

Illustrations for example purposes only.

You can find the full range of HYMER original parts & accessories on the internet at: www.hymer-original-parts.com

Lasting protection

The HYMER nano-coating is a high-performance two-component paint sealant. It provides lasting protection for your paintwork and makes it quicker and easier to clean. That way, your vehicle will keep its shine – and its value – for a long time to come.

Like sleeping on air

The new Visco-Elastic foam specially developed for the HYMER mattress topper is air-permeable and moulds to your body at the slightest resistance. This produces a pressure-relieving effect, guaranteeing improved blood circulation and sleeping comfort over longer periods.

No more detours

Professional, mobile navigation system for motorhomes and caravans from HYMER and Tom-Tom, including integrated ADAC site and camping guide plus free lifetime map updates.

Made to measure

You can tell an original HYMER fitted sheet from its optimal fit. Available for all bed versions, the sheet is pleasantly soft to the touch and is machine-washable at 60 degrees and dryer-safe.

Perfect protection

The new Eriba towbar cover is made from high-quality weather-resistant canvas, and is attached with an expander.

Wrapped up warm

The large new super-soft blanket from Zoeppritz in the colour Smoke is washable and dryer-safe.

HYMER original parts and accessories are not available direct from the factory, but are ordered and retrofitted exclusively via your HYMER dealer.

Note

This brochure describes the series status at the time of publication. Despite careful checking of the contents, misprints cannot be ruled out. We reserve the right to modify the equipment or make product improvements during the course of the model year. Before signing a sales contract, please ask one of our authorised HYMER/ERIBA dealers about the current product and series status.

Some vehicles are shown with optional extras which are quoted in the current price list and available at extra cost. The decoration shown is not supplied by HYMER/ERIBA. The details of scope of delivery, appearance, performance, dimensions and weights are valid at the time of going to press – deviations within the factory tolerance limits (max +/- 5%) are possible and permissible.

These data comply with European homologation regulations, which may change up to the time of vehicle purchase or delivery. Your HYMER/ERIBA dealer will gladly provide information on any changes and the standard scope of delivery.
